GETTING STARTED

Installing the SIM and Micro SD card:
1. use metal ejector pin provided to open the SIM tray.
2. Pull out the SIM tray.
3. Place Nano-SIM in inside position.
4. Place Nano-SIM or Micro SD card in outside position.
5. Make sure that the Nano-SIM and Micro SD card the cut corner aligned with tray in the correct position as per the diagram shown above.

Micro SD

NOTE:
1. * For some versions, AGM_PAD_P2 does not support 2 SIM cards data services working together. When inserting 2 SIM cards, you can only choose one of the 2 SIM cards to use 4G services.The AGM_PAD_P2 supports dual SIM dual standby but single pass. This means that you cannot use both SIM cards for calls or data services simultaneously.
2. Nano-SIM and Micro SD card socket can only be used for either Nano-SIM or Micro SD card. Place the Nano-SIM vertically or place Micro SD card horizontally.
3. SIM card adapter. A cut SIM card or any other non-standard cards are not allowed. Those non-standard cards may not be recognized by the phone and can damage the tray.

*5G WIFI is for indoor use only.
*Following functions are disabled in AGM_PAD_P2 WIFI: Nano-SIM.

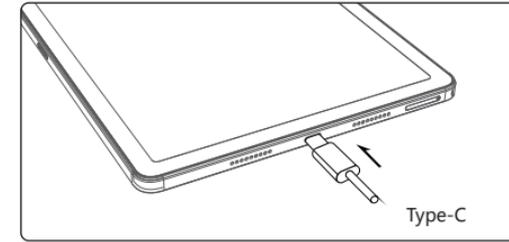

BATTERY AND CHARGING

Note: The AGM_PAD_P2 battery is not removable

Standby time:
1. The AGM_PAD_P2 standby time is dependent on different working environments.
2. AGM_PAD_P2 receiving a weak network signal and operating at low temperature will have a shortened standby time.Screen brightness, system settings, games, music, video, location services, camera, Bluetooth, Wi-Fi and applications consume the most battery power.

Charging the PAD:
1. Connect the USB power cable to the port. Be careful not to use excessive force when plugging the cable. Any damage caused by attempting to insert the connector incorrectly is not
covered by the warranty.
2. Connect the USB power cable to the charging power adapter.
*AGM_PAD_P2 supports CE/CB/FCC/EAC or equivalent certified chargers.
The recommended charger output is PD 20.0 W.Uncertified equipment may cause damage to the device or cause batteries to explode.
3. Plug the charger into an AC mains socket.
4. When charging is complete, remove the cable from the device.

Type-C

Tips:
1. The optimum working temperature for the AGM_PAD_P2 is from 0℃~40℃.Charging the PAD outside this temperature range will damage the battery and shorten battery life.
* Please do not charge the PAD under extremely low or high temperature, Please charge the phone under 5℃~40℃. Otherwise the battery will be damaged or exploded.
2. Please use the certified charger and cable to ensure maximum performance and safety.
3. Please note that the battery will still discharge itself even when the PAD is not in use and switched off. If you plan to not use the unit for an extended period, you should still charge it a least every two months to prevent complete power loss and to protect your data.

Quick Start Guide

Powering On the Device:
Press and hold the power button for 5 seconds, release the button after the device vibrates.
Your device will start, and you'll see the brand's startup screen.
Unlocking the Device:
