

PRODUCT MANUAL SCENT MARKETING

USE WARNING

1. When inserting the oils bottle, please keep the machine vertical. Tilt or lie flatly may cause oil overflow and then destroy the machine.

2. This product is only suitable for supporting essential oils. Once run out of the oils, kindly contact your supplier for another bottle of oils.

3. Shall not modify, disassemble or repair the machine.

4. Do not use this product under high humidity and high pressure conditions.

5. It is better to screw the machine on the wall than just stick it via tape; otherwise, the machine will be easy to fall down.

PRODUCT PARAMETERS

Product:	A804-BT

FCC Warning Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- - Reorient or relocate the receiving antenna.
- - Increase the separation between the equipment and receiver.
- - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- - Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

RF Exposure Statement

To maintain compliance with FCC's RF Exposure guidelines, This equipment should be installed and operated with minimum distance of 20 cm the radiator your body. This device and its antenna(s) must not be co-located or operation in conjunction with any other antenna or transmitter.
