GET THE MOST OF YOUR VONT CAM

SET UP YOUR VONT CAM

- 1. Download the Vont Home app.
- 2. Create an account or sign in.
- 3. Wait for the LED light to flash yellow.
- Press the reset button at the back of the cam until you hear "Ready to connect."
- Follow on-screen instructions on the app to complete the setup.

LED STATUS

	LED Light	Description
_	Solid yellow	Booting up
_	Flashing yellow	Ready for setup
•	Flashing blue & yellow	Connecting to the router
-	Flashing blue	Connecting to cloud/finishing setup
_	Solid blue	Up and running

MOUNT YOUR VONT CAM

Set the positioning sticker to where you want to install the cam.

Drill holes with a 3mm drill bit.

Place the screw anchors into the holes if you're installing on concrete, bricks, or any hard surface. Insert the screws into the anchors and make sure they fit tight.

Align the camera's bottom onto the screws and push the base down until it clicks into place.

Plug Vont Cam using the USB cable and power adapter provided.

- You can mount your cam on the wall or ceiling.
- Mount while it's OFF.
- ①
- Keep away from anything that may obstruct its view.
- Your Vont Cam is water-resistant and can withstand downpours but is not meant to be waterproof.

FCC Warning

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- —Reorient or relocate the receiving antenna.
- —Increase the separation between the equipment and receiver.
- —Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- —Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment .This equipment should be installed and operated with minimum distance 20cm between the radiator& your body.

ISEDC warning

This device complies with Innovation, Science, and Economic Development Canad licence-exempt RSS standard(s). Operation is subject to the following two conditions:

- (1) This device may not cause interference, and
- (2) This device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d' Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence.

L'exploitation est autorisée aux deux conditions suivantes :

- (1) l'appareil nedoit pas produire de brouillage, et
- (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

The device is compliance with RF exposure guidelines, users can obtain Canadian information on RF exposure and compliance. The minimum distance from body to use the device is 20cm.

Le présent appareil est conforme

Après examen de ce matériel aux conformité ou aux limites d'intensité de champ RF,

les utilisateurs peuvent sur l'exposition aux radiofréquences et la conformité and compliance d'acquérir les informations correspondantes. La distance minimale du corps à utiliser le dispositif est de 20cm.
