#### (4) Frequently Asked Questions

##### 1. How to update the product?

After the Apple mobile phone is successfully connected to the CarPlay box, or connect to the mobile phone in the box Wi-Fi, Wi-Fi password: 88888888, Apple mobile phone access Safari browser, Enter the IP address: 192.168.2.1 to change. Mode setting and upgrade to the updated version;

**[Note: After changing the settings or upgrading the box, you need to plug and unplug the box again]**

#### (4) Frequently Asked Questions

##### 2. Web page setting page, function introduction

A. [ Delay Start ] : This is the time to delay the start of the box, and generally do not need to be modified

B. [ Media sound quality ] : If there are problems with Siri, music, navigation, and phone sounds during use, you can modify this to match.

C. [ Connection setup ] : There are three options here

##### [ Enable connection tips ] :

The default is to keep it open. If there is a blurry or green screen on the connection screen, you need to turn off this option.

##### [ Automatically show carplay ] :

The default is off. If the car cannot be automatically connected to Carplay when it starts, you can turn on this option.

##### [ Compatibility mode ] :

The default is off. If the display resolution is abnormal after connection, you can turn on this option.

D. [ Download logs ] : If the model problem cannot be solved by the above setting methods, you can download the log data, send the file to the dealer, and send it back to our engineers for in-depth analysis for processing and solution.

**FCC Statement:**

**This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: 1) this device may not cause harmful interference, and 2) this device must accept any interference received, including interference that may cause undesired operation.**

**This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try correct the interference by one or more of the following measures:**

- Reorient the receiving antenna.**
- Increase the separation between the equipment and receiver.**
- Connect the equipment into and outlet on a circuit different from that to which the receiver is connected.**
- Consult the dealer or an experienced radio/TV technician for help.**

**Changes or modifications not expressly approved by the party responsible for compliance could void your authority to operate the equipment.**
