# Specifications

- . Model: IX11I
- Bluetooth version: 5.2
- Single earbud weight: 4.2g
- Earbud size: 20.8\*18\*24MM
- Earbud battery capacity: 3.7V/2\*50mAh
- = Earbud charging time: about 0.5 hour
- . Play music time: about 6 hours(Medium volume)
- Support Agreement: SPP / HFP / A2DP / AVCTP / HID
- Frequency: 2.4GHz~2.48GHz Bluetooth distance: 10M
- . Power input: DC 5V/500mA
- Charging case battery capacity: 3.7V/300mAh
- Charging bin to charge the earbud: 2 times
- " Charging bin size: 54\*36\*28mm
- Charging bin weight: 33g

# FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference.

to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receivingantenna.
- Increase the separation between the equipment andreceiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device compiles with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

# RF Exposure Information

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction
