This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device and its antenna(s) must not be co-located or operation in conjunction with any other antenna or transmitter.

Radiation Exposure Statement

The device has been evaluated to meet general RF exposure requirement. In portable exposure condition without restriction.

OPERATING TIPS AND TROUBLESHOOTING

To charge the Micro M90, plug the included Micro USB cable into a power outlet.

- Use a USB outlet to charge.
- While charging, the LED light will light up Red to inform you that it is still charging. It will turn Green when fully charged.

Use the Power Button to turn on the Micro M90, and it will automatically go into Bluetooth pairing mode.

- Hold Power Button 2-3 seconds to turn on/off Micro M90.
- Make sure your device has Bluetooth on, and pair it with "Micro M90".
- Blue LED flashes rapidly while pairing. Once connected, blue LED pulsates slowly once paired.
- Once the Micro M90 is connected, you can play audio from your phone as usual. Use the Volume Control to change the volume and press the power button to pause/start music.
- The Micro M90 will shut off after 10 minutes if left on standby.

My Micro M90 is not pairing to my phone.

- Make sure that your device's Bluetooth mode is set to on to pair your Micro M90.
- Pair to "Micro M90".

The Bluetooth Audio Quality sounds different with different apps.

- Different apps have different sound qualities (for example, Spotify will be different than YouTube).

M90 Micro can also be used to make and receive phone calls when connected to your mobile device via Bluetooth.

CAUTION

CHOKING HAZARD on small parts (Micro M90, Cable). Not suitable for children under 3 years old.

Opening and tampering with the ReplTronics M90 MICRO can result in damage to your product, void of warranty, and could cause injuries.

To clean, wipe gently with a soft dry cloth. Never submerge your M90 MICRO unit in water.

Only charge with power adapters that meet the Micro M90's requirements.

Store in a cool, dry place when not in use.

ISED statement

English:
