|            |  A photograph showing the front side of the test setup. A wooden table is positioned in front of a large, transparent, metallic-looking enclosure. A black laptop is placed on the table. To the right of the table, a silver electronic device (likely a power supply or amplifier) is connected to the setup via cables. The floor is a light-colored concrete. |
| Test Setup | Conducted measurement (Side)                                                                                                                                                                                                                                                                                                                                                                                                                         |
|            |  A photograph showing the side view of the test setup. The wooden table and the transparent enclosure are visible. A black laptop is on the table. In the background, a computer monitor and other electronic equipment are visible on a desk. The floor is a light-colored concrete.                                                                            |
