

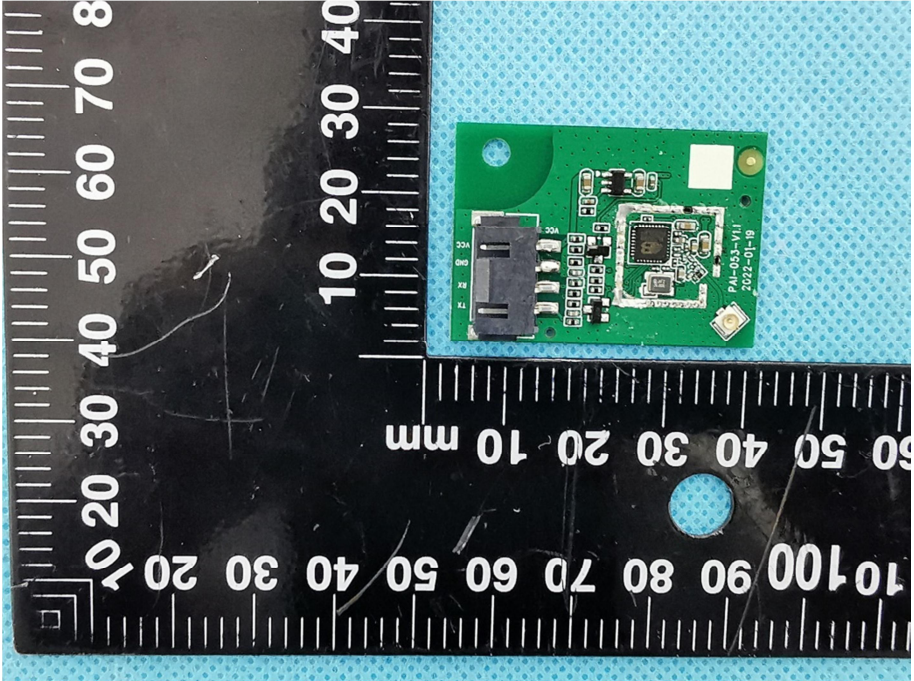

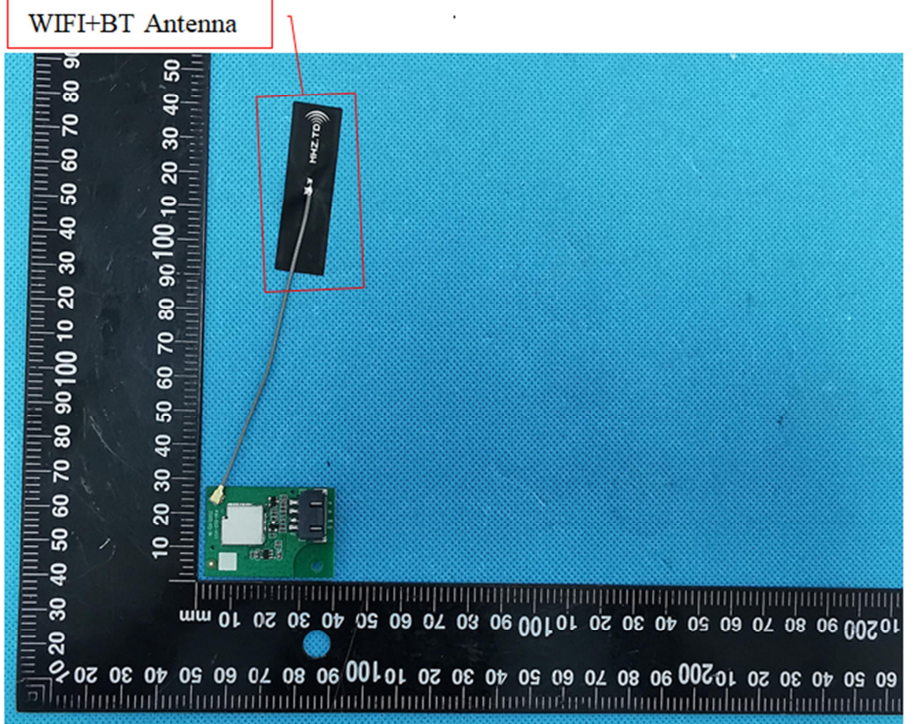

### EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

<p><b>EUT Housing and Board View 1</b></p>	 <p>A photograph showing the internal components of the EUT housing. A green printed circuit board (PCB) is visible, featuring various electronic components including a microcontroller, capacitors, and a connector. The board is placed on a blue textured surface. A black ruler with white markings is positioned vertically and horizontally to provide scale. The ruler markings are in millimeters, with labels every 10 units (e.g., 10, 20, 30, 40, 50, 60, 70, 80, 90, 100). The board is approximately 40mm wide and 30mm high.</p>
<p><b>Antenna View</b></p>	 <p>A close-up photograph of the WiFi+BT antenna. The antenna is a small, black, rectangular component with a gold-colored connector on one end. It is connected to the PCB by a thin wire. A red box highlights the antenna component. A red label with the text "WiFi+BT Antenna" is placed above the antenna, with a red line pointing to the component. A black ruler with white markings is positioned vertically and horizontally to provide scale. The ruler markings are in millimeters, with labels every 10 units (e.g., 10, 20, 30, 40, 50, 60, 70, 80, 90, 100). The antenna is approximately 30mm long and 10mm wide.</p>
