

EXHIBIT 4 - TEST SETUP PHOTOGRAPHS

Radiation Emission Test Setup (Below 30MHz)

Radiation Emission Test Setup (30MHz to 1GHz)

<p>Radiation Emission Test Setup (1GHz to 18GHz)</p>	<p>A photograph of a radiation emission test chamber. The interior walls are covered with white, square-shaped pyramidal absorbers. A white, rectangular object is placed on a white, rectangular stand in the center. A red, fan-shaped antenna is positioned in the foreground, pointing towards the object. The floor is covered with blue, conical absorbers.</p>
<p>Radiation Emission Test Setup (Above 18GHz)</p>	<p>A photograph of a radiation emission test chamber, similar to the one above. The interior walls are covered with white, square-shaped pyramidal absorbers. A white, rectangular object is placed on a white, rectangular stand in the center. A blue, flexible antenna is positioned in the foreground, pointing towards the object. The floor is covered with blue, conical absorbers.</p>
