

## 3in1 Wireless Charger

## User Manual

### Device Layout:

### Product Parameter

Product name: 3 in 1 wireless charger  
Material quality: ABS + Silicone  
Dimensions: 247\*74.5\*7.5MM  
Interface: C-C  
Input: 9V/3A  
Mobile phone output: 5W/7.5W/10W/15W  
iWatch output: 2.5W  
Earbuds: 5W  
Compatibility: support mobile phones, Earbuds, and iWatch that comply with the Qi standard

### Operating Instructions:

1. Using the cable provided, connect the 3-in-1 Wireless Charger to a reliable wall adapter.
2. Charging a Phone: Place your Qi compatible phone atop the phone charging area to begin charging.
3. Charging a Watch: Place your iWatch atop the watching charging area to begin charging. It's recommended that the watch charger either be flat or at a 90 degree angle for optimal charging.
4. Charging Earbuds: Place your Qi compatible earbuds atop the earbud charging area to begin charging.

### Precautions :

1. Keep product dry to avoid short circuits or other damage to electrical components.
2. Avoid placing metal or magnetic items on the charging area which could result in overheating and product failure.
3. Keep device away from high heat and flammable liquids and gasses. Avoid using in environments above 45C and below 0C.
4. We strongly recommend using a high quality, certified wall adapter to provide power to this device. Failure to do so may result in slow charging speeds or product failure.
5. Do not disassemble the product or replace any parts. In case of the damage to this item, please stop using the product immediately.

The content of this manual and product specifications are subject to change without notice

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- ? Reorient or relocate the receiving antenna.
- ? Increase the separation between the equipment and receiver.
- ? Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- ? Consult the dealer or an experienced radio/TV technician for help.

#### Radiation Exposure Statement

This device complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be collocated or operating in conjunction with any other antenna or transmitter. During the operation of device a distance of 15 cm surrounding the device and 20 cm above the top surface of the device must be respected.
