View 2**

<p style="text-align: center;">Solder Board-Component View 1</p>	 A photograph of a green printed circuit board (PCB) populated with various electronic components, including resistors, capacitors, and integrated circuits. The board is placed on a blue textured surface next to a black ruler with white markings. The ruler shows dimensions in millimeters. Text on the board includes "LT-01a<2021-4-23>2" and "压大管条100x18.6mm".
<p style="text-align: center;">Solder Board-Component View 2</p>	 A photograph of the reverse side of the green PCB, showing the solder mask and numerous solder joints connecting components. The board is placed on a blue textured surface next to a black ruler with white markings. The ruler shows dimensions in millimeters.

<p style="text-align: center;">Solder Board-Component View 3</p>	 A photograph of a green printed circuit board (PCB) populated with various electronic components. The components include a large black circular component, several integrated circuits, resistors, and capacitors. The board is placed on a blue textured surface next to a black ruler with white markings in millimeters. The ruler is oriented vertically on the left side of the board, with markings from 0 to 100 mm. The board itself is approximately 100 mm wide and 60 mm high.
<p style="text-align: center;">Solder Board-Component View 4</p>	 A photograph of the reverse side of the green PCB. It shows a dense array of silver-colored solder joints and traces. The board is placed on the same blue textured surface next to the same black ruler. The ruler is oriented vertically on the left side of the board, with markings from 0 to 100 mm. The board is approximately 100 mm wide and 60 mm high.
