

<p style="text-align: center;">Solder Board-Component View 9</p>	 A photograph of a blue printed circuit board (PCB) component, labeled '9', showing its soldered side. The board is populated with several white plastic connectors, a central integrated circuit, and various surface-mount components. It is placed on a blue textured surface next to a black ruler with white markings for scale.
<p style="text-align: center;">Solder Board-Component View 10</p>	 A photograph of a blue PCB component, labeled '10', showing its soldered side. This board features a large silver metal connector housing and a central integrated circuit. It is placed on a blue textured surface next to a black ruler with white markings for scale.

<p style="text-align: center;">Solder Board-Component View 11</p>	 A photograph showing a blue printed circuit board (PCB) component, model MP3-L1001 LED (UL-0-170788), mounted on a larger blue PCB. The component is positioned next to a black metric ruler for scale. The ruler shows markings from 0 to 100 millimeters. The component has several gold-plated pins and a small white connector on the right side.
<p style="text-align: center;">Solder Board-Component View 12</p>	 A photograph showing a black PCB component with a digital display and a USB port, mounted on a larger blue PCB. The component is positioned next to a black metric ruler for scale. The ruler shows markings from 0 to 100 millimeters. The component has a USB port on the right side and a digital display on the left side.
