| <div>Solder<br/>Board-Component View<br/>1</div> |  A photograph showing the solder side of a printed circuit board (PCB) assembly. The board is populated with various electronic components, including a large yellow electrolytic capacitor, several integrated circuits, and smaller passive components. The assembly is placed on a blue textured surface next to a black ruler with white markings in millimeters. The ruler is oriented vertically, showing measurements from 0 to 100 mm.  |
| <div>Solder<br/>Board-Component View<br/>2</div> |  A photograph showing the solder side of a printed circuit board (PCB) assembly. The board is populated with various electronic components, including a large yellow electrolytic capacitor, several integrated circuits, and smaller passive components. The assembly is placed on a blue textured surface next to a black ruler with white markings in millimeters. The ruler is oriented vertically, showing measurements from 0 to 100 mm. |

|                                                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
|--------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <div>Solder<br/>Board-Component View<br/>3</div> |  A photograph of a yellow printed circuit board (PCB) populated with various electronic components. The components include several integrated circuits, resistors, capacitors, and a black connector. The board is placed on a blue textured surface next to a black ruler with white markings in millimeters. The ruler shows measurements from 0 to 100 mm. |
| <div>Solder<br/>Board-Component View<br/>4</div> |  A photograph of a green printed circuit board (PCB) populated with various electronic components. The components include several integrated circuits, resistors, capacitors, and a black connector. The board is placed on a blue textured surface next to a black ruler with white markings in millimeters. The ruler shows measurements from 0 to 100 mm. |

|                                                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
|--------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <div>Solder<br/>Board-Component View<br/>5</div> |  A photograph of a green printed circuit board (PCB) component, labeled '5', showing its solder side. The board is populated with various electronic components including a large electrolytic capacitor, several integrated circuits, and surface-mount components. It is placed on a blue textured surface next to a black ruler with white markings in millimeters. |
| <div>Solder<br/>Board-Component View<br/>6</div> |  A photograph of the same green PCB component, labeled '6', showing its component side. The board features various electronic components such as integrated circuits, capacitors, and resistors. It is placed on a blue textured surface next to a black ruler with white markings in millimeters.                                                                    |

|                                                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
|--------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <div>Solder<br/>Board-Component View<br/>7</div> |  A photograph of a green printed circuit board (PCB) component, labeled 'LT-A12-S USB V02 2021-03-18 JZ', positioned on a blue textured surface. The component is oriented vertically and features a USB connector at the bottom and several other connectors and components at the top. A black ruler with white markings is placed horizontally below the component, showing measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm).    |
| <div>Solder<br/>Board-Component View<br/>8</div> |  A photograph of a green printed circuit board (PCB) component, labeled 'LT-A12-S USB V02 2021-03-18 JZ', positioned on a blue textured surface. The component is oriented horizontally and features a USB connector at the right and several other connectors and components at the left. A black ruler with white markings is placed horizontally below the component, showing measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). |
