

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

**EUT Housing and Board
View 1****EUT Housing and Board
View 2**

Solder Board-Component View 1	 A photograph of a small green printed circuit board (PCB) component, labeled 'MX-A2735-1', resting on a blue textured surface. The component features several electronic components, including two large black electrolytic capacitors, a smaller black capacitor, and various integrated circuits. It has two white plastic connectors on one side. A black ruler with white markings is placed horizontally below the component, showing measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm).
Solder Board-Component View 2	 A photograph of the same green PCB component from a different angle, showing the underside. The component is labeled 'MX-A2735-1 LED V01' and '2020-08-15 XR'. It has several solder points and components visible on the bottom. A black ruler with white markings is placed horizontally below the component, showing measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm).

Solder Board-Component View 3	 A photograph of a green printed circuit board (PCB) populated with various electronic components, including integrated circuits, capacitors, and resistors. The board is positioned horizontally against a black background with a white millimeter ruler. The ruler has markings from 0 to 100 mm, with the board spanning approximately from the 10 mm mark to the 80 mm mark. The background is a blue textured surface.
Solder Board-Component View 4	 A photograph of the same green PCB from a different perspective, showing the underside or a different side. It features various components and solder joints. The board is placed on the same black background with a white millimeter ruler, spanning from approximately 10 mm to 80 mm. The background is a blue textured surface.

Solder Board-Component View 5	 A photograph of a green printed circuit board (PCB) populated with various electronic components, including integrated circuits, resistors, and capacitors. The board is positioned on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters, with the board spanning approximately from the 10 mm mark to the 100 mm mark.
Solder Board-Component View 6	 A photograph of a yellow printed circuit board (PCB) featuring five vertical black components, likely capacitors or inductors, and a white connector on the left side. The board is placed on a blue textured surface next to a black ruler with white markings. The ruler indicates the board's length is approximately 100 mm.

Solder Board-Component View 7	 A photograph of a yellow printed circuit board (PCB) component, labeled '2016-08-02' and 'L1-7-02', resting on a blue textured surface. The board features several electronic components, including resistors and integrated circuits. A black cable is connected to the board. A black ruler with white markings is placed below the board for scale.
Solder Board-Component View 8	 A photograph of a green printed circuit board (PCB) component, labeled '2016-08-02' and 'L1-7-02', resting on a blue textured surface. The board features several electronic components, including resistors and integrated circuits. A black cable is connected to the board. A black ruler with white markings is placed below the board for scale.
