Solder Board-Component View 11	 A photograph of a small blue printed circuit board (PCB) component, labeled "MP3-LT001 LED" and "V1.0-178788". The component is positioned on a black surface with a white ruler for scale. The ruler shows measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). The component has several pins and a small orange component attached to it.
Solder Board-Component View 12	 A photograph of a larger black printed circuit board (PCB) component, labeled "MP3-LT001 LED" and "V1.0-178788". The component is positioned on a black surface with a white ruler for scale. The ruler shows measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). The component has several pins and a small orange component attached to it.

Solder Board-Component View 13	 A photograph of a black printed circuit board (PCB) populated with various electronic components, including integrated circuits, resistors, and capacitors. The board is positioned against a blue background with a black ruler for scale. The ruler shows dimensions in millimeters, with markings from 0 to 100 mm visible on the left and bottom edges.
Solder Board-Component View 14	 A photograph of a yellow printed circuit board (PCB) populated with electronic components, including a large yellow electrolytic capacitor, several green electrolytic capacitors, and various resistors. The board is positioned against a blue background with a black ruler for scale. The ruler shows dimensions in millimeters, with markings from 0 to 100 mm visible on the left and bottom edges.
