View 1**

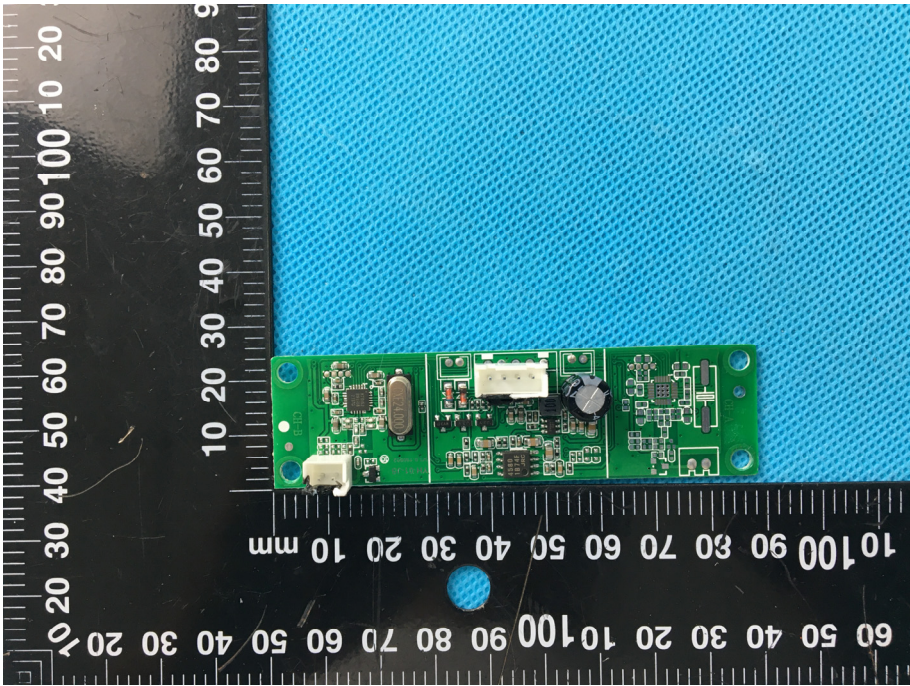

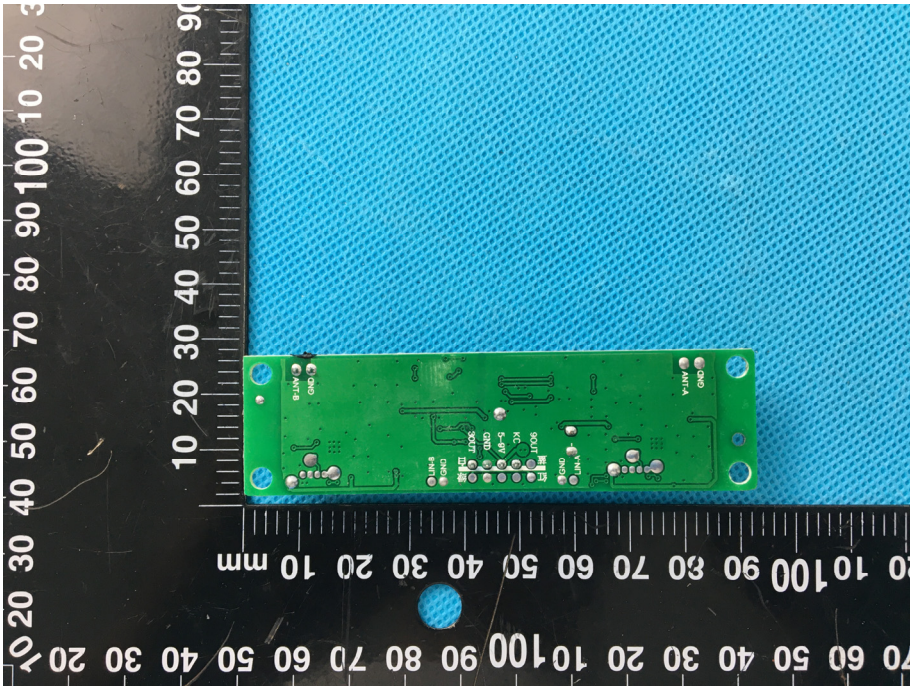

**EUT Housing and Board  
View 2**

<div>Solder Board-Component View 1</div>	 A photograph of a small, square, black printed circuit board (PCB) component. The board is populated with several surface-mount components, including resistors and a central integrated circuit (IC) with a circular top. Text on the board includes "MX-1122-B2", "MX-1135-B2", "2020/12/04", "B 50K", and "HIC-UOL". A black cable with a multi-colored connector is attached to the bottom right. The component is placed on a blue textured surface next to a black ruler with white markings in millimeters.
<div>Solder Board-Component View 2</div>	 A photograph of a green printed circuit board (PCB) component. The board is populated with several surface-mount components, including resistors and a central integrated circuit (IC) with a circular top. The board is placed on a blue textured surface next to a black ruler with white markings in millimeters.

<div>Solder Board-Component View 3</div>	 A photograph of a green printed circuit board (PCB) component, labeled '3', showing its solder side. The board is populated with various electronic components including a large black electrolytic capacitor, a white multi-pin connector, and several integrated circuits. It is placed on a blue textured surface with a black ruler for scale.
<div>Solder Board-Component View 4</div>	 A photograph of the same green PCB component, labeled '4', showing its reverse side. This side features a dense array of solder pads and vias, with some components like a small black chip and a white connector visible. It is placed on a blue textured surface with a black ruler for scale.
