

<p style="text-align: center;">Solder Board-Component View 13</p>	 <p>A photograph of a yellow PCB populated with various electronic components, including a yellow DC-DC converter module labeled 'DOPPOWER-GF-Q3 OUT:15V/4000MA', several electrolytic capacitors, and other surface components. The board is placed on a blue textured surface next to a black ruler with white markings for scale.</p>
<p style="text-align: center;">Solder Board-Component View 14</p>	 <p>A photograph of the same yellow PCB as in view 13, but with all components removed, showing the bare board with numerous through-hole and surface-mount pads. The board is placed on a blue textured surface next to a black ruler with white markings for scale.</p>

<p style="text-align: center;">Solder Board-Component View 15</p>	 <p>A photograph of a blue printed circuit board (PCB) component, labeled '15', placed on a blue textured surface. The component is oriented vertically and features a white rectangular component at the top, several white connectors along the left edge, and various electronic components including a microcontroller and capacitors. A black ruler with white markings is positioned to the left and bottom of the component for scale, showing measurements in millimeters.</p>
<p style="text-align: center;">Solder Board-Component View 16</p>	 <p>A photograph of a blue printed circuit board (PCB) component, labeled '16', placed on a blue textured surface. The component is oriented vertically and features a white rectangular component at the top, a USB-A port on the left, and various electronic components including a microcontroller and capacitors. A black ruler with white markings is positioned to the left and bottom of the component for scale, showing measurements in millimeters.</p>

<p style="text-align: center;">Solder Board-Component View 17</p>	 A photograph showing a blue printed circuit board (PCB) component with a white connector. The component is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters, with the component's length being approximately 40 mm. The PCB has the text "MP3-LT001 LED" and "U1.0-170708" printed on it.
<p style="text-align: center;">Solder Board-Component View 18</p>	 A photograph showing a blue PCB component with a black display and a white connector. The component is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters, with the component's length being approximately 40 mm. The PCB has the text "MP3-LT001 LED" and "U1.0-170708" printed on it.
