SMART LIGHT PANELS
USER’S MANUAL

Basic Parameter

CCT: 2700 K-6500 K
Energy Consumption Per Panel: 2W
Power Supply Power: 36W
Dimmability: Yes (via App or Voice)
Compatibility: Google Assistant,Amazon Alexa,Siri
Max Panels Per Controller: 1-18PCS
Housing Materials: PC w/t V2 Fire Rate
Working Temp: -4°F - 104°F(-20°C-40°C)
Voltage: 100 V-240 V(Universal)
Color Channel: RGBW
Communication Protocol: WiFi+Bluetooth (2.4Ghz b/g/n)
Lifespan: 25,000 hours.
Max Colors: 16.7 M+
Certifications: FCC CE ROHS

Instruction Manual for Controller function

- 🎵 • 7 musical scenes
 - S • Dynamic scene
 - M • Static scene
 - 🔌 • ON/OFF
1. Long press the button for about 10 seconds when the light is onto enter the distribution network state.
 2. Turn on/off three times can also enter the distribution networ kstate.
Note: if the panel is red color and no response, please power off once

Operation steps of mobile APP connection:

- 1.Download APP from store or website:

APP: Smart Life

APP: Tuya Smart

- 2.Open WIFI(2.4Ghz) and Bluetooth, enter APP, and perform operations:

FCC Statement
Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
-- Reorient or relocate the receiving antenna.
-- Increase the separation between the equipment and receiver.
-- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
-- Consult the dealer or an experienced radio/TV technician for help
This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions (1)this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Caution.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
