

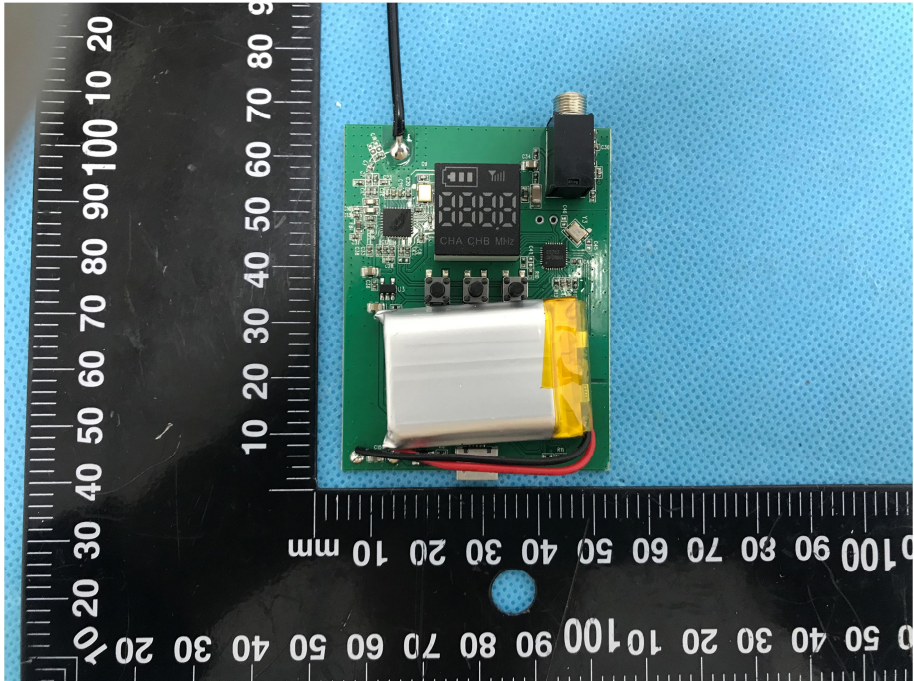

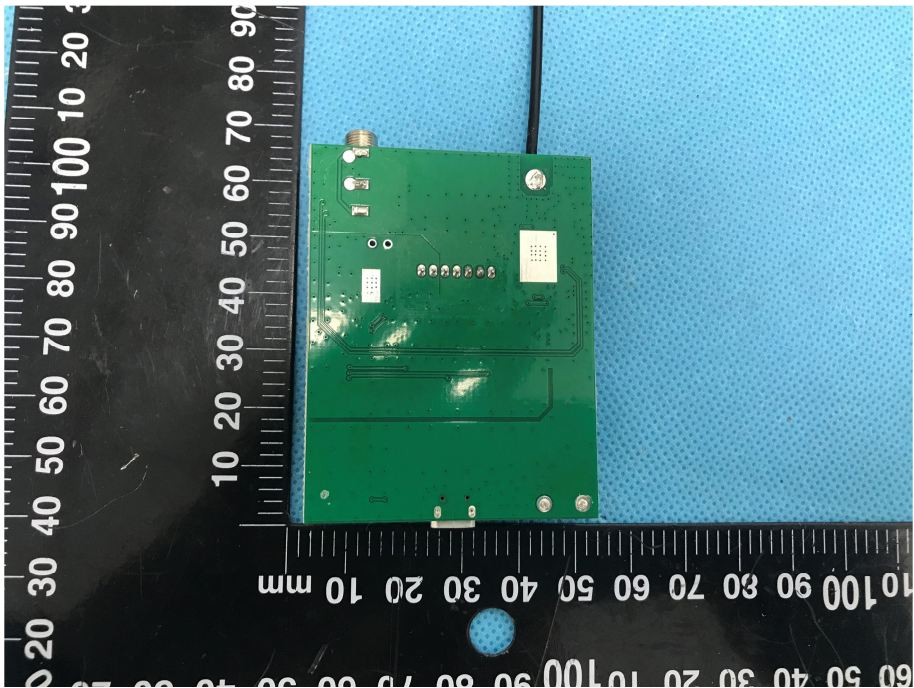

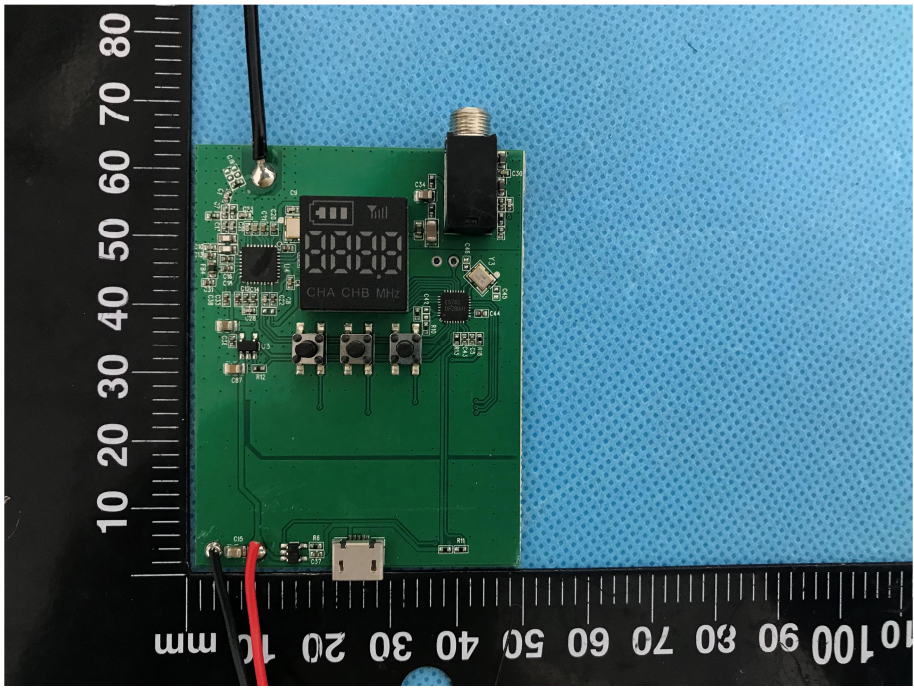

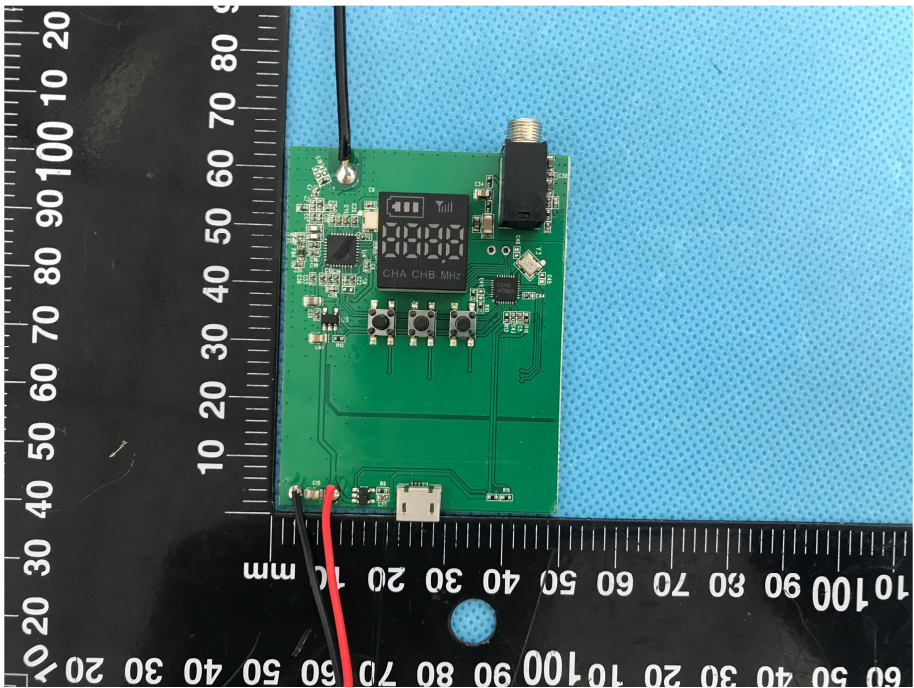

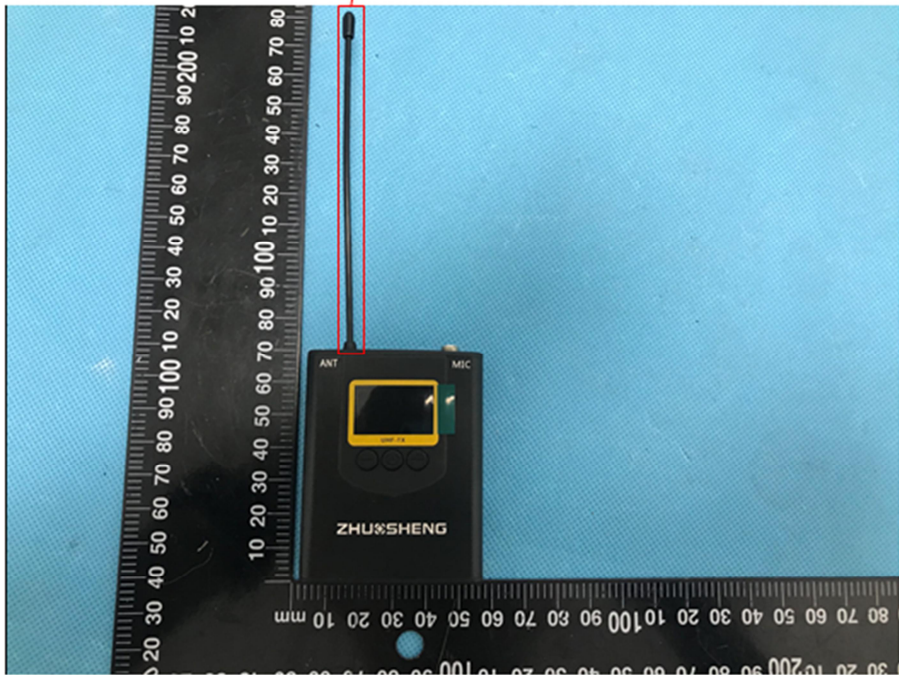

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

<p>EUT Housing and Board View 1</p>	 <p>A photograph showing the internal components of an EUT. On the left is a green PCB with a white battery, a black antenna, and various electronic components. To the right is a black plastic housing with a yellow display screen, labeled 'ANT' and 'MIC', and the brand name 'ZHUOSHENG'. Two black plastic clips are also visible. A black ruler with white markings is placed below the components for scale.</p>
<p>Solder Board-Component View 1</p>	 <p>A close-up photograph of the green PCB components. It shows the white battery, a black antenna, and various electronic components including a display screen and a microphone. A black ruler with white markings is placed below the components for scale.</p>

<p style="text-align: center;">Solder Board-Component View 2</p>	 A photograph of a green printed circuit board (PCB) component. The board is rectangular and features several components, including a small white rectangular component near the top center and a larger white component near the bottom center. A black cable is connected to the top edge of the board. The board is placed on a black surface with a white ruler for scale, showing measurements in millimeters. The ruler is oriented vertically on the left side of the board, with markings from 0 to 100 mm. The background is a light blue surface with a fine grid pattern.
<p style="text-align: center;">Solder Board-Component View 3</p>	 A photograph of a green printed circuit board (PCB) component. The board is rectangular and features several components, including a large black integrated circuit (IC) with a display area, a black cable connected to the top edge, and a red cable connected to the bottom edge. The board is placed on a black surface with a white ruler for scale, showing measurements in millimeters. The ruler is oriented vertically on the left side of the board, with markings from 0 to 100 mm. The background is a light blue surface with a fine grid pattern.

<p style="text-align: center;">Solder Board-Component View 4</p>	 <p>A photograph showing a green printed circuit board (PCB) with various electronic components. A black digital display shows 'CHA CHB MHz'. The board is placed on a black ruler with white markings in millimeters. A red wire is connected to a component on the board. The background is a blue textured surface.</p>
<p style="text-align: center;">Antenna View</p>	 <p>A photograph showing a black handheld device with a yellow screen and a small antenna. The device is labeled 'ANT' and 'MIC' and 'ZHU SHENG'. A red box highlights the antenna, with a callout text: '570-579.5MHz/ 580-589.5MHz Antenna'. The device is placed on a black ruler with white markings in millimeters. The background is a blue textured surface.</p>
