

Phone Link

You can't control your samrtphone here.

- When the device is plugged into the iPhone, the content of the phonescreen will be projected onto the car screen.
1. Connect the USB data cable to the phone
 2. Click Trust in the popup window of mobile phone
 3. Enter the phone screen lock password

Click the PHONE LINK function
iphone: Auto Connect:Mirror

Android Link

MANAGE FROM THE APP!

When using an Android device, after connecting the USB data cable, you will be prompted to install the APP software. After installation, plug the data cable again, it will enter the screen mirroring mode. And it can be operated on both the player screen and the phone screen.

Click the PHONE LINK function
android: Auto Connect: Mirror

Sound transmission to car horn

This unit has built-in speaker, but if you want louder sound, you can transfer it to your car 's speakers.

1.Click the FM transmitting function and turn on the switch

2.By FM radio transmitter - set the same FM radio

channel on the unit and your car ' s radio.

(please avoid using the channel to be occupied by the FM station)

3.By AUX cable - plug the aux cable into the unit audio port and your car 's original aux port if your car has.
