

**英文 (EN)**

## **Baseus Magnetic Mini Air Wireless Fast Charge Power Bank 6000mAh 20W**

### **User Manual**

Before using the product, thoroughly read this manual. Keep the manual for future reference.

#### **1. Warnings**

Improper use of the product may lead to battery malfunction or severe overheating, and may even cause fire or explosion. To avoid any damage to you and your property, please follow the instructions below when you use and store the product.

1. This is NOT a toy! Please place this product in areas that are not easily accessible by children. Do not allow children to operate this product, or accidents may occur.
2. Please charge this product with a charger approved by the local safety standards in case of danger or damage.
3. DO NOT apply pressure, and avoid collisions. The battery and circuit may be damaged if this product falls from a great height, experiences intense shocks, or is immersed in liquid; if so, please avoid using this product.
4. If this product suffers from deformation, leakage, or radical decline in performance, please stop using this product.
5. Please DO NOT charge any device or recharge this product in places that may affect its heat dissipation, such as pants pockets, enclosed bags, beds, or couches. And ensure this product is not under any cover when operating. When charging other devices for prolonged periods, DO NOT stack any device on top of this product, or it might affect its heat dissipation.
6. This product CAN NOT be disassembled, applied pressure, pierced, short-circuited, immersed in liquid, disposed of in a fire, or exposed to a high temperature or heat source with a temperature greater than 140°F (60°C).
7. DO NOT place this product in areas with extremely high temperatures. Such as under direct sunlight or in a vehicle with a very high interior temperature.
8. This product contains lithium batteries, DO NOT disassemble it! Or danger or battery damage may occur.

#### **2. Attention**

Please fully charge this device before using it for the first time.

The power banks have conversion efficiency, so the battery capacity of power bank is not equal to the rechargeable capacity.

Please choose an appropriate charger for recharging this product and suitable cables when charging other devices.

Please ensure some supervision is in progress when recharging this product, DO NOT charge this product without any care.

Please remove the cable when done recharging this product or finished charging for any other device to preserve the product integrity.

If the indication does not light up after pressing the power button, please recharge this product.

Please preserve this product with a battery percentage between 25%-50% for long-term storage. Place this product in a cool and dry environment. To slow down battery aging, avoid storing this product in an empty or full charge for long-term storage.

Please do not dismantle the product by yourself. Improper use or placement may compromise the service life or damage the product, to which our company will not bear any legal responsibilities nor offer any guarantee. Please understand.

### 3. Specifications

Name: Power Bank  
Model No.: **PPCXM06G**  
Battery: Polymer Lithium Battery  
Power Capacity: 6000mAh / 22.2Wh  
Energy Conversion Rate:  $\geq 75\%$   
Type-C Input: 5V/3A; 9V/2A  
Type-C Output: 5V/2.4A; 9V/2.22A; 12V/1.5A  
Wireless Output: 5W/7.5W/10W/15W  
Total Output: 5V/2.4A

### 4. Content

Power bank  $\times 1$   
Charging cable  $\times 1$   
User manual  $\times 1$   
Warranty card  $\times 1$

### 5. Product Schematic Design

Wireless charging indicator

Battery level display

Wireless charging area

Power switch  
Type-C input  
Type-C output

### 6. Description

This product is a portable charging device that can provide wired and wireless charging for mobile phones, tablets, game consoles and other digital products. The product has auto-alignment for magnetic charging, and supports Apple 20W PD fast charging, Type-C dual-way fast charging, 15W wireless fast charging, etc. It has built-in FOD, overcharge, over-discharge, temperature protection and other safety protection circuits.

### 7. Operating Environment

Operating temperature: non-tropical area, 0°C to 35 °C

Storage temperatures: 0 °C to 40 °C

### 8. Icon Description

The 5-year icon refers to the "valid period for environment-friendly use", not the product quality assurance period. All electronic products contain toxic and harmful substances such as lead, mercury and cadmium. The overdue use of these products may lead to leakage or mutation of these toxic and harmful substances, causing environment pollution or serious damage to people and property. The term of "environment-friendly use period" means that all electronic products shall be used within this validity period. We won't be held liable for safety issues caused by using of the product beyond its safe service life.

## Declartion of Conformity

Shenzhen Baseus Technology Co., Ltd. declares that the product is in compliance with Directive 2014/53/EU. The full text of the EU declaration of conformity is available at the following internet address:<https://eu.baseus.com/pages/euro-compliance>  
This product can be used across EU member states.

TX/RX Frequency Range: 115-205KHz(only for EU and UK)  
Radiated H-Field:-17.74dB $\mu$ A/m@10m"

## FCC Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- (1) Reorient or relocate the receiving antenna.
- (2) Increase the separation between the equipment and receiver.
- (3) Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- (4) Consult the dealer or an experienced radio / TV technician for help.

### Radiation Exposure Statement

The product has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
