4. for Android Auto Connection.

Before connect the Android Auto function, it requires your phone to install the Android Auto software.

Before connect the Android Auto function, if your phone has connected the AirPlay /CarPlay /Autolink, please set the Android Auto as the priority application.

4.1 Wireless Android Auto connection

4.2 Wired Android Auto connection

Connect your phone to the CarPlay decoder by USB cable.

5. AirPlay Connection

Before connect the Airplay function, if your phone has connected the Android Auto /CarPlay /Autolink, please set the Airplay as the priority application.

Step 1: Turn on your mobile Phone "WiFi", connect your phone to the decoder box WiFi. The

WiFi name of the decoder box is Car*****, password is 88888888

Step 2: Click the AirPlay in your iPhone's menu and start to use the AirPlay function.

6. Wired Autolink Connection

Before connect the Autolink function, it requires your phone to install the Autolink software.

Before connect the Autolink function, if your phone has connected the AirPlay /CarPlay /Android Auto, please set the Autolink as the priority application.

Wired Autolink connection

Connect your phone to the CarPlay decoder by USB cable.

7. Voice Assistant Function

Voice assistant function can help you to control the most commonly used functions by voice, instead of by the joystick control.

For example, if you want to back to car OEM system interface from the CarPlay interface, you can say "hi,Yo, return to car", don't need to long press the switching button.

7.1 Before to use the voice assistant function, you need to turn on this function. Enter the "Voice Assistant" menu from the Setup menu, set the "Assistant Enable" and "Voice Enable" into "on".

7.2 The voice assistance consists of two parts: activation words + command words.

The activation word is "Hi Yo", the command words are as Last song, Return to car, Enter Decoder, Open setup, etc.

Below are some examples to use the voice assistance function.

- 1) If you want to back the decoder interface from the CarPlay interface, you can say "Hi Yo, enter decoder.
- 2) If you want to back to car OEM system interface from the CarPlay interface, you can say "Hi,Yo, return to car".
- 3) If you want to open the CarPlay from the decoder main menu interface, you can say "Hi,Yo, open carplay".
- You can check the command words by enter into the Item List. Keturn **〈** Return Item List Voice Assistant Activation Assistant Enable on off Hi Yo Hi Siri OK Google Voice Enable on off **Direct Commands** Next song Return to car Enter Decoder Item List > Last song Stop play Play music Answer call Hang up Learn List > Open Navigation Stop music Hi Siri OK Google Last music Next music **Direct Command Enable** on off 7 /8

7.3 Learn the command words. You can set the command words with your words.

Enter the "Voice Assistant" menu from the Setup menu , then click the "Learn List" and start to set the command words.

	K Return Voice Assistant		〈 Return Learn List	
	Assistant Enable on off		Last song	0
	Voice Enable on off		Next song	•
	Item List >		Return to car	۲
	Learn List		Play music	٢
0	Direct Command Enable on off	0	Answer call	٢

Choose the corresponding command, say your command word into the mic, then repeat it again, the new command word will replace the old one if the screen show the "successful"

8. Contact US

Please contact us via the purchase platform, mail or the WhatsApp if you need any help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

-Reorient or relocate the receiving antenna.

-Increase the separation between the equipment and receiver.

-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

-Consult the dealer or an experienced radio/TV technician for help.

-This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
