Product Model: X1 PHEN True Wireless Earbuds

FCC statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause unintended operation. Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device and its antenna(s) must not be co-located or operated in conjunction with any other antenna or transmitter.

Radiation Exposure Statement

This device has been evaluated to meet general RF exposure requirements in portable exposure conditions without restriction.

En français: l'appareil ne présente pas de restriction.

L'appareil a été évalué pour s'être conformé aux exigences relatives à l'exposition aux RF dans des conditions d'exposition portatives sans restriction.

ISED statement

English:

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's (ISED) licence-exempt RSS(s). Operation is subject to the following two conditions: (1) This device may not cause interference. (2) This device must accept any interference, including interference that may cause unintended operation of the device.

French: Cet appareil contient des émetteur(s) et/ou récepteur(s) de licence qui sont conformes aux RSS exemptés de licence d'Innovation, Science et Développement économique Canada. L'exploitation est soumise aux deux conditions suivantes: (1) Cet appareil ne doit pas provoquer d'interférence. (2) Cet appareil doit accepter toute interférence, y compris les interférences susceptibles de provoquer un fonctionnement indésirable de l'appareil.

This device meets the exemption from the routine evaluation limits in section 2.3 of RSS 102 and compliance with RSS 102 RF exposure, users can obtain Canadian information on RF exposure and compliance.

Cet appareil est conforme à l'exemption des limites d'évaluation courante dans la section 2.3 du crr-102 et conforme à avec les exigences relatives à l'exposition aux champs électromagnétiques.

This equipment complies with Canada radiation exposure limits set forth for an uncontrolled environment.

Cet équipement est conforme aux limites d'exposition aux rayonnements de Canada d'usage pour un environnement non contrôlé.

The device has been evaluated to meet general RF exposure requirements. This equipment should be installed and operated with minimum distance (from the radiator to your body). L'appareil a été évalué pour s'être conformé aux exigences relatives à l'exposition aux RF. Cet équipement doit être installé et utilisé avec une distance minimale de 10 mm entre le radiateur et votre corps.
