To Whom It May Concern,

**RE: TN201SC-B product components**

The Blu Wireless Technology product TN201SC-B is a multi-component radio system. This product can only operate as a complete set to perform its product function. The product is sold commercially as a set and not in component form. The product testing targeting compliance with FCC requirements has been conducted with the full product as defined here.

The full TN201SC-B product comprises 3 components

- TN001XC-B : The main processor unit
- TN201SP-B : The radio head including 2 antenna modules.
- TNCAB2B: An interconnecting cable between the 2 units.

Yours Faithfully,
