Troubleshooting

1. Can we connect more than 6 light strings to make it longer than 100ft?
You can connect up to 150ft (9 string light sections) at maximum.

2. Can we cut them and reattach?
Each 100ft contains 6 x 16.67ft segments. You can detach one or two of them and use the rest light strip.

3. How do we install on different eaves/peaks of roof lines?
You can use the 2*6ft extension cables that comes with the package.

4. The adhesive tape is not strong enough.
Use the clips to secure the strip lights firmly during installation.

5. APP can't scan the device
a. Ensure the Bluetooth on your smartphone has been turned on.
b. Your smartphone may be incompatible with Smart Life app. Try using a different smartphone then reconnect.
c. Power the light and your smartphone's Bluetooth off then on. then try again
d. Ensure that your smartphone is within 2m/6.6ft of the light when scanning.
e. Clear any obstructions that are between the light and your smartphone.

6. Cannot connect to Wi-Fi.
a. 5GHz network is not supported. Please set the router to 2.4GHz and then reset it.
b. Connect your smartphone to Wi-Fi and check whether the network works well.
c. Make sure you have entered the correct Wi-Fi name and password.
d. Change your Wi-Fi password to a brief one.8 numbers and letters are suggested.
e. Connect hotspot in your phone to the lights and check whether the router works with the lights.

7. The light do not display the selected colorfully/Some LED beads do not light up.
Please contact the ASAHOM support team via Amazon Message Center for rapid product replacement.

8. Cannot connect to Alexa.
a. Pull out every connective part of the lights and firmly re-connect them.
b. Re-connect your smartphone to Wi-Fi.
c. Plug out the adapter port and re-plug it in.
