When fully charged, the charging time of the mobile phone will be extended.</p> <p>How to solve abnormal charging</p> <p>Please confirm whether your mobile phone has wireless charging function before use. Check if the phone deviates from the wireless inductive charging area of the charger. Whether to use a non-metallic protective case for charging the mobile phone, and the thickness of the protective case is not recommended to be more than 4 mm, identify and remove the phone from the charging area, the charger will automatically activate. When the charger temperature is too high, the protection will be automatically activated. Please unplug the power first, wait for the charger to return to normal temperature before use.</p> <p>Frequently Asked Questions</p> <p>Why do wireless charging and induction products generate heat when charging? During the charging process, there will be a certain loss of resistive electric conversion, and this part of the loss will be converted into heat. It is normal for the phone and charger to generate heat.</p> <p>Suggest: When the devices fully charged, please disconnect the charging in time to avoid the heat of long-time charging, resulting in the temperature of the device and charger too high. When the mobile phone is charging, please close the mobile phone background software to run the software.</p>	<p>Precautions</p> <p>只能在室內或干燥環境下使用，避免放置于高溫、潮濕、高靜電和高磁場的環境中放置或攜帶； 為了您的安全，請不要用手直接觸摸； 避免放在嬰兒和兒童容易觸摸到的地方； 若產品涉及或接觸到水、泥土，請勿使用； 非專業人員請勿擅自拆卸維修。</p> <p>產品規格</p> <p>型號：B-18 輸入：3V~2A, 12V~1.5A 手機輸出：15W Max 耳機輸出：5W 手表輸出：3W 材質：ABS+PC 顏色：黑、白</p> <p>包裝清單</p> <p>無線充電器 x 1 TYPE-C 充電線 x 1 說明書 x 1</p>

ICC Information
This device may not cause harmful interference and must accept any interference received, including interference that may cause undesired operation.
This equipment has been tested and found to comply with the limits for Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.
This equipment generates use and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to the equipment and may, if this equipment does not meet the FCC interference limits, cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on. The user is encouraged to try to correct the interference by one of the following measures:
--Reorient or relocate the receiving antenna.
--Increase the separation between the equipment and receiver.
--Connect the equipment into an outlet on a circuit different from that to which the interference is occurring.
--Consult the dealer or an experienced radio/TV technician for help.
Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
This device complies with Part 15 of the FCC Rules. Exposure limits set forth for an unmodulated transmitter in operation in conjunction with any other antenna or transmitter. During the operation of a device a distance of 15 cm surrounding the device and 20 cm above the top surface of the device must be respected.
