

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

EUT Housing and Board View 1	 A photograph showing the internal components of a device, specifically the housing and the printed circuit board (PCB). The housing is black and has a rectangular opening for the screen. The PCB is green and features various electronic components, including a large black chip, a smaller black chip, and several smaller components. The device is placed on a blue textured surface next to a black ruler with white markings in millimeters.
Solder Board-Component View 1	 A photograph showing the internal components of a device, specifically the solder board and the printed circuit board (PCB). The solder board is green and features various electronic components, including a large black chip, a smaller black chip, and several smaller components. The device is placed on a blue textured surface next to a black ruler with white markings in millimeters.

Solder Board-Component View 4	 A photograph showing a small, rectangular, silver-colored component (likely a battery or capacitor) soldered onto a green printed circuit board (PCB). The component is positioned next to a black ruler with white markings, indicating its size. The component has two red wires soldered to its left side. The PCB is placed on a blue textured surface. The component's label includes the text: "JPV 303040 3.7V", "320mAh 202111", and a small logo.
Antenna View	 A photograph showing the back of a green printed circuit board (PCB) with various components. A red box highlights a specific area on the PCB, labeled "BT Antenna". The PCB is placed on a blue textured surface. The PCB has several components, including a large silver component, a small black component, and a small red component. The PCB is labeled with "3777A-1018-211214" and "AXHY-M8072157-V1.4 20211214".
