

<p>NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:</p> <ul style="list-style-type: none"> - Reorient or relocate the receiving antenna. - Increase the separation between the equipment and receiver. - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. - Consult the dealer or an experienced radio/TV technician for help. <p>Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.</p> <p>This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.</p>	<h2>C492-in-1 audio adapter</h2> <h3>user's manual</h3> <p>Please read this manual carefully before use</p>	<table border="1"> <tr><td>Basic Information</td><td>1</td></tr> <tr><td>Interface diagram</td><td>2</td></tr> <tr><td>Two modes</td><td>3</td></tr> <tr><td>Pairing adapter with Bluetooth earphones in transmission mode</td><td>4</td></tr> <tr><td>Pairing adapter with device with AUX-IN port in receive mode</td><td>8</td></tr> <tr><td>Connect the second phone</td><td>11</td></tr> <tr><td>Adapter Charging</td><td>12</td></tr> <tr><td>Indicator Status Guide</td><td>13</td></tr> </table>	Basic Information	1	Interface diagram	2	Two modes	3	Pairing adapter with Bluetooth earphones in transmission mode	4	Pairing adapter with device with AUX-IN port in receive mode	8	Connect the second phone	11	Adapter Charging	12	Indicator Status Guide	13	<p>Packaging list:</p> <ol style="list-style-type: none"> 1. <p>After successful connection, the red light remains on.</p> <p>The first connection may take a few seconds, and after successful connection, it will automatically connect the next time.</p> <p>Matters needing attention:</p> <p>In transmit mode, if wireless devices cannot be searched after startup, it may be in a reconnection state. At this point, you can double-click TC and search again.</p>	<p>Connect the adapter to the headphone jack (Transmit mode)</p> <p>Insert the adapter into the headphone jack of the entertainment device you need.</p>	<p>Adapter for speaker devices with AUX-IN ports (Receive mode)</p> <p>Switch the adapter to receive mode (RC), and the blue light flashes to indicate that it is in a waiting state for pairing.</p> <p>Matters needing attention:</p> <p>In reception mode, if the phone cannot find the adapter after turning on, it may be in a reconnection state. At this point, you can double-click TC and search again.</p>	<p>When the adapter is waiting for pairing, open the phone's wireless settings, search for C492, and select pairing.</p>	<p>After the phone is successfully connected, insert the adapter into the AUX-IN port of the speaker.</p>	<p>Connect to the second phone</p> <p>After the first mobile phone is connected successfully, turn off the wireless of the first mobile phone. After the second mobile phone is connected wirelessly, turn on the wireless reconnection of the first mobile phone to connect two mobile phones at the same time. Or after the first mobile phone is connected successfully, double-click the TC button and the blue light flashes, and then use the second mobile phone to search the wireless of the device for connection.</p>	<p>Adapter charging</p> <p>When charging, simply plug one end of the included charging cable into the adapter and the other end into any powered USB port. The adapter can be fully charged within 2 hours. The battery life is about 14 hours after being fully charged. We recommend fully charging it before first use. When charging, the charging indicator light comes on. After being fully charged, the indicator light goes out.</p>	<p>Indicator Status Guide</p> <table border="1"> <tr> <td>Red light flashing</td> <td>Transmit mode waiting for pairing</td> </tr> <tr> <td>Red light always on</td> <td>Transmit mode pairing successful</td> </tr> <tr> <td>Blue light flashing</td> <td>Receive mode waiting for pairing</td> </tr> <tr> <td>Blue light always on</td> <td>Receive mode pairing successful</td> </tr> <tr> <td>The charging indicator light is on</td> <td>Charging</td> </tr> <tr> <td>The charging indicator light is off</td> <td>Charging completed</td> </tr> </table>	Red light flashing	Transmit mode waiting for pairing	Red light always on	Transmit mode pairing successful	Blue light flashing	Receive mode waiting for pairing	Blue light always on	Receive mode pairing successful	The charging indicator light is on	Charging	The charging indicator light is off	Charging completed
