## 13. Key Safety Tips

1）Do not expose the smartwatch to extremely high-temperature environments like scorching sun rays or around high-temperature devices, such as heaters, ovens, microwave ovens or water heaters. High-temperature environments may cause battery explosions or other safety accidents.

2）The product includes an irremovable lithium-polymer battery. Non-professionals are not allowed to disassemble it in case of a safety accident.

3）This product has passed multiple waterproof tests before launch. Its internal parts, however, may experience wear and tear due to different using habits, affecting its sealing effectiveness. Please wear and use the smartwatch carefully during swimming, diving, etc. But avoid wearing it in a sauna or for a hot shower.

4）This product is not designed as a medical device. The heart rate, blood pressure and other health data collected by it are only for reference rather than clinical basis.

## 14. Disclaimer

This user manual is published by KOSPET that owns the right of final interpretation. We may make adjustments to this manual anytime if necessary. All pictures for describing functions are for reference only.

## 15. FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two onditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

—Reorient or relocate the receiving antenna.
—Increase the separation between the equipment and receiver.
—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
—Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement
This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment .
This transmitter must not be co‑located or operating in conjunction with any other antenna or transmitter.
