

# Fast Wireless Charger User Manual

## Connect to Power Adapter

## Specification

Input: 5V/2A, 5V/2A, 9V/2A  
 Output: 5V/1A, 5V/1.5A, 5V/2A  
 Output watch: 2W  
 Output esaphone: 5W

Receiving distance: 2-10mm  
 Frequency: 100-200KHz  
 Size: 160\*150\*22mm

## Mobile phone charging right way

- Ⓚ Electric charging board blue and green lights after the double flash light, charging plate into standby.
- Ⓚ The mobile phone with wireless charging function is arranged on the charging board, and the LED indicator light is displayed. For the blue long light, at this time for the state of charge, the phone is full of electricity after the LED indicator light show green.

## Compatibility

10W Fast Charge Mode: Samsung Galaxy S10, S10e, S10 5G, S10 5G Plus, S9, S9 Plus, S9e, S9e Plus, S8, S8 Plus, S8e, S8e Plus, S7, S7 Edge, S7 Active, S7 Edge Active, S6, S6 Edge, S6 Edge Plus, S6 Active, S6 Edge Active, S5, S5 Active, S5 Edge, S5 Edge Plus, S4, S4 Active, S4 Mini, S4 Mini Plus, S3, S3 Mini, S3 Mini Plus, S2, S2 Active, S2 Plus, S2 Ultra, S20, S20 FE, S20 Ultra, S20 Ultra 5G, S20 Ultra 5G+.

## Notes:

- Please pay attention to the following issues, otherwise it may cause abnormal charging, high charging temperature, intermittent charging, or even not charging.
1. Please put the phone/watch at the center of charge area (as picture shows).
  2. We recommend QC2.0/3.0 Quick charger adapter (9V/2A). Because the charger charges the device at the same time, 5V/2A is normal charge, the charging speed would be slower.
  3. The charging distance is 2-10mm, please don't wear protective cases which is over 3mm thick.
  4. The watch has temperature control. When the temperature is too high, the charging will stop automatically. If the temperature is normal, it will continue to charge.
  5. No metal or magnetic objects around 6cm of the back center of the phone during charging.
  6. The lower temperature, the faster charging speed. The charging speed is faster in winter than in summer.
  7. Please don't charge in high temperature and humid environments to avoid damage of circuit.
  8. Put it at the place that children can't reach to avoid unnecessary accidents.
- The involved images are sketch maps the final product as per the materials subjects  
 Includes: wireless charger, 1m power cable, user manual

## FCC warning:

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the distance between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

This device complies with part 15 of the FCC rules, operation is subject to the following two conditions:(1)This device may not cause harmful interference, and (2)This device must accept any interference that may cause undesired operation
