3in1 Wireless Charger

1. Introduction:

- 1.phone charging
- 2.Headphone charging
- 3.Watch charging
- 4.Operating indicator

5.Type-C power supply port

2. Operation instructions:

- ① After plugging in the power,the blue light flashes three times and then goes out
- ② When the LED indicator is steady blue, the Mobile phone is in charging state, if the LED indicator is off, the device is fully charged
- ③ When the LED indicator is steady blue, the earphone is in charging state if the LED indicator is off, the device is fully charged

1.

This product is charged by being connected to the type-c port on the QC3.0 adapter. After plugging in the power,the blue light flashes three times and then goes out it indicates that the power supply is normal.

2.

Non-magnetic mobile phone charging:align the wireless charging position of your non-magnetic mobile phone charging with the circular region. When the screen of your mobile phone shows charging it indicates the phone is charging normally.

3.

Bluetooth headset charging: align the Bluetooth headset receiving position with the wireless charging output position for charging

4.

Watch charging: Please align the charging receiving position of the watch with the wireless charger. When the watch shows the "charging" sign, it means the watch is charging normally.

5.

Working indicator: the blue indicator is always on when the mobile phone is charging, is always off when the mobile phone is not charging or fully charged, and flickers when the mobile phone is charging abnormally.
