

7in1 Wireless charging pile

Product function introduction

Step 1: install the mounting bracket

Step 2: Press and hold here to insert

Product parameters

| | |
|--------------------------------|------------------------------|
| Input: 100-200V50-60HZ | Output: Max to 78W |
| Output1: Phone 5W/7.5W/10W/15W | Frequency: 115-205KHz |
| Output2: Watch 3W (Max) | Conversion: ≥73% |
| Output3: AirPods 5W(Max) | Input Interface: Type-C port |
| Output4: Pencil 2W(Max) | Transmission distance: ≤8mm |
| Output5: USB Port 18W(Max) | Product Size: 160*137*167mm |

Package List

1 * 7 in 1 wireless charging station, 1 * 5FT power cable,
4 * short charging cables(2 lightning cable + 1 Type-C cable + 1 Micro USB cable),
4 * Strong Baffle, 1 * User Manual.

Matters Needing Attention

Please pay attention to the following issues, otherwise it may cause abnormal charging, high charging temperature, intermittent charging, or even not charging.

1. Please put the phone/watch at the center of charge area.

2. We recommend QC2.0/3.0 fast charger adapter(9V/2A), which can charge three devices at the same time while maintaining the fastest speed. The 5V/2A charger can only provide a normal charging speed, which will be slower than that of a fast charger.

3. The charging distance is 2-8mm, please don't wear protective case which is over 3mm thick.

4. The watch has temperature control. When the temperature reaches 104° F, it will stop charging automatically, If the temperature is normal, it will continue to charge.

5. No metal or magnetic objects around 6cm of the back center of the phone during charging.

6. The lower temperature, the faster charging speed. The charging speed is faster in winter than in summer.

7. Please don't charge in high temperature and humid environments to avoid damage of circuit

8. Put it at the place that children can't reach to avoid unnecessary accidents.

9. Please pay attention to use in a safe environment! Do not approach flammable objects such as fires!

10. Do not touch the product with wet hands or wipe the product with wet cloth!

FCC warning:

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

This device complies with part 15 of the FCC rules. operation is subject to the following two conditions:(1)this device may not cause harmful interference,and (2)this device must accept any interference received, including interference that may cause undesired operation
