The ISO users need to go to the Bluetooth settings of the phone, select the Bluetooth name of the smart watch, and click "Forget this device". The “About”  of the watch has an “Unbind” button, click it to unbind or do it in the APP. For the safety of users’ data, the watch will implement a factory reset after that.

●Frequently asked questions and answers

***Please avoid exposing the device to extreme temperatures that are too cold or too hot for a long time, which may cause permanent damage.**

***Why can't I take a hot bath with my watch?**

The temperature of the bath water is relatively changed, it will produce a lot of water vapor, and the water vapor is in the gas phase, and its molecular radius is small, and it is easy to seep into the gap of the watch case. The internal circuit of the watch is short-circuited, which damages the circuit board of the watch and damages the watch.

***No power on, no charging**

If you receive the goods and the watch does not turn on, it may be caused by a collision during the transportation of the watch and the battery Seiko board has been protected, so plug in the charging cable to activate it.

If the battery is too low or the watch does not turn on after a long period of time, please plug in the data cable and charge it for more than half an hour to activate.

Warranty description:

1. If there are any quality problems caused by manufacturing, materials, design, etc. in normal use, the motherboard of the watch is guaranteed for repair for free within one year, while the battery and charger within half a year from the date of purchase.

2. No warranty is provided for failures caused by the user's personal reasons, as follows:

1). Failure caused by unauthorized disassembly or modification of the watch.

2). Failure caused by accidental fall during use.

3). All man-made damages or the third party's fault, or misuses (such as: water in the device, cracking by external force, scratches on the case, damage, etc.) are not covered in the warranty.

3. When requesting the warranty service, please provide a warranty card with the date of purchase and the stamp of the place of purchase on it.

4. When the user needs the device repaired, please take the device to our company or our company's dealership.

5. All functions of the device please refer to the actual product.

FCC Caution:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

Hereby, Shenzhen Xinkeying Technology Co., Ltd declare that the radio equipment type Product Name is compliance with Directive 2014/53/EU.

Bluetooth μ	
Modulation: μ	GFSK μ
Operation frequency: μ	2402MHz~2480MHz μ
Channel number: μ	40 μ
Channel separation: μ	2MHz μ
Max Peak Output Power: μ	-4.76 dBm μ
Antenna type: μ	Internal Antenna μ
Antenna gain: μ	-0.7dBi μ

Bluetooth	
Modulation:	GFSK, $\pi/4$ DQPSK, 8DPSK
Operation frequency:	2402MHz~2480MHz
Channel number:	79
Channel separation:	1MHz
Max Peak Output Power:	-10.49dBm
Antenna type:	Internal Antenna
Antenna gain:	-0.7dBi

Hardware version:	V1.0
Software version:	V1.0
RF Specification	
Operating Frequency:	115-205kHz
Test Frequency	126.4kHz
Channel number:	1
Antenna type:	Internal Antenna

This device was tested for operations. To comply with RF exposure requirements, a minimum separation distance of 0mm must be maintained between the user's body and the handset, including the antenna. Third-party belt-clips, holsters, and similar accessories used by this device should not contain any metallic components. Body-worn accessories that do not meet these requirements may not comply with RF exposure requirements and should be avoided. Use only the supplied or an approved antenna. This device in compliance with the essential requirements and other relevant provisions of Directive 2014/53/EU. All essential radio test suites have been carried out.

1. Use careful with the earphone maybe possible excessive sound pressure from earphones and headphones can cause hearing loss.
2. CAUTION : RISK OF EXPLOSION IF BATTERY IS REPLACED BY AN INCORRECT TYPE.
DISPOSE OF USED BATTERIES ACCORDING TO THE INSTRUCTIONS
- 3.The product shall only be connected to a USB interface of version USB 2.0
4. Adapter shall be installed near the equipment and shall be easily accessible.
5. The plug considered as disconnect device of adapter
6. The device complies with RF specifications when the device used at 0mm form your body
7. There are no restrictions on the use of the product in all EU countries.
