

Smart watch

USER MANUAL

Thank you for choosing our smartwatch. By reading this manual, you can fully understand the use and operation of the device. Any questions, please contact our support services team.

Included in the box: a box, a manual, a watch and a data cable.

Binding and unbinding the smartwatch:

1. App Download

1.1 Scan the QR code below to download the app.

1.2 For Android users

Search for "WearPro" in the Google Play app store or any customized Android store to download, remember to check the pop-up box on your phone when installing, and agree to the permission.

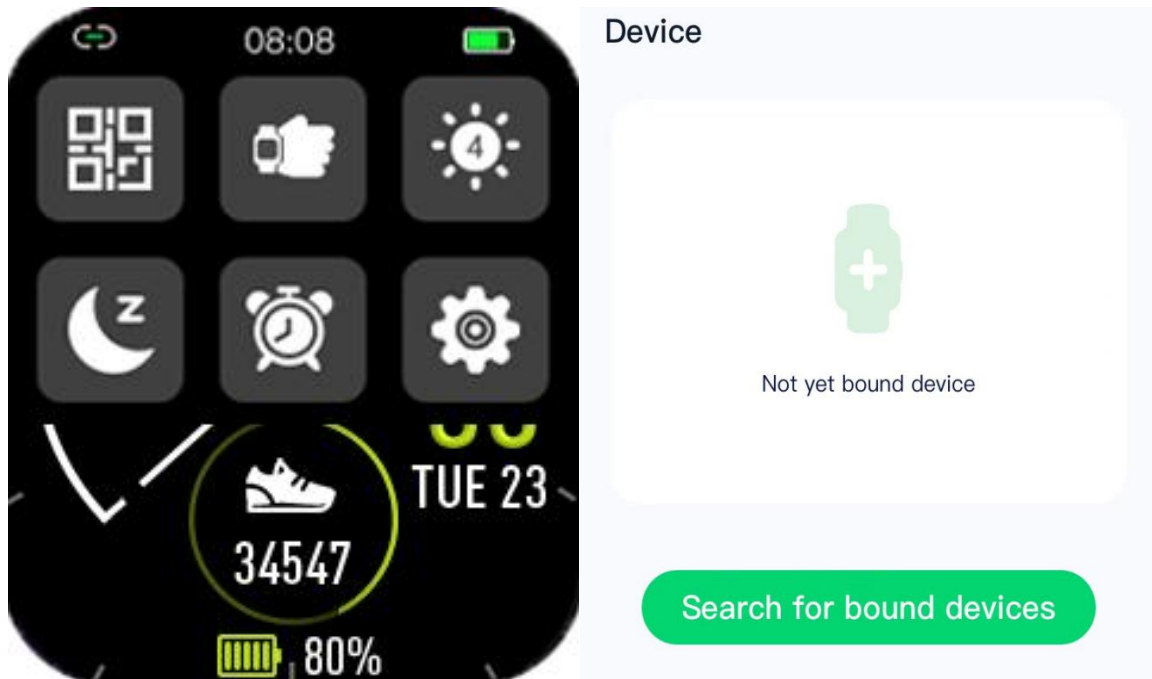

1.3 For IOS users

Search for "WearPro" in the APP Store to download, remember to check the pop-up box on your phone when installing, and agree to the permission.

After WearPro is installed, the app icon appears as .

2. Bind the smartwatch with WearPro

2.1 Search the bluetooth name to connect/pair

Swipe down on the main interface of the watch, find the first icon  and click it, and remember the Bluetooth name of the watch; then open the app "WearPro" on your phone, click the "Device" on the bottom bar, find and click "Search for bound devices" to start the search in the Bluetooth list, find your watch's Bluetooth name and pair it. After a successful connection, the watch's Bluetooth icon will light up green in the middle.

2.2 Scan the QR code to connect/pair

Swipe down on the main interface of the watch, click the first icon , you can see a QR code for connection, then take out your mobile phone and open the app "WearPro", click the "Device" on the bottom bar, find and click "Scan code to bind device", After scanning the QR code, a pairing box will pop up, click "Pair" to connect the app to the watch. Remember to allow the smartwatch to display notifications for various apps.

3. Unbind the Bluetooth connection from the APP

3.1 Android system

In the "Device" column of "WearPro", scroll down and find "Unbind", click "Unbind" to disconnect the smartwatch.

3.2 IOS system

In the "Device" column of WearPro, scroll down and find "Unbind", click "Unbind" to disconnect the smartwatch; then enter the Bluetooth settings of the mobile phone, select the Bluetooth name of the smart watch, and click "Forget this device".

After you unbind the app WearPro and the smartwatch, the Bluetooth icon on the smartwatch will turn to gray.

4. Data synchronization

After the watch is successfully bound to the application, the data in the smartwatch can be synchronized to the application.

5. Find the smartwatch

After the watch is successfully bound to the app, click "Find Watch" in "WearPro", and the watch screen will light up and vibrate.

6. Camera

Click "camera" in the app WearPro to wake up the camera mode of the watch, click the camera button on the watch to take photos, and the photos will be automatically saved to the phone album.

7. Call notification and SMS reminder

Click the button behind "Incoming call" and "SMS" in the app WearPro to turn on the function. When the phone receives a call, the watch will light up or vibrate. You can turn this feature off if you don't want to be notified of incoming calls and messages.

8. App notifications

Click "App Notification" in the app WearPro, you can choose to receive notifications of Whatsapp, Messenger, Twitter, Linkedin, Instagram, Facebook, etc.

9. Alarm setting

In the APP, Tap "Device" > "More", set the time period of the start and the end in a day, the alarm can be set for only once or recurring by selecting the date (week), and the alarm can be turned on/off.

10. Sedentary reminder

Set the start and the end time of the sedentary reminder, and the time interval (minutes) in the APP. You can set the reminder for once or to repeat regularly by entering the repeating setting. When the sedentary time is reached, the watch will vibrate and display a sedentary icon on the screen.

11. Drink water reminder

Set the reminder frequency (minutes) and the time period of the start and the end in a day in the APP. You can set the reminder for once or to repeat regularly by entering the repeating setting and selecting the date (week) of the water reminder. When the time of drink water reminder is reached, the watch will vibrate and there will be a water icon on the screen.

12. Firmware version

You can check the firmware version in the app WearPro "Device" column, and choose to upgrade the firmware version.

Button description:

1)When the smartwatch is in the dial interface, short press the physical button to enter menu page, and short press the button again to go back to the dial interface.

- 2) When the smartwatch is in the second-level or the third-level interface, short press the button to go back to the dial interface.
- 3) Long press the button, tap "✓" to turn off the smartwatch, tap "×" to go back to the dial interface.

Charging description:

Magnetic charging shown as the picture below.

Smartwatch functions introduction

Click " ✓ " to start the factory reset, click "X" to cancel the factory reset.

2.7.6 About

Here you can see the watch's exclusive QR code, Mac code, firmware version, and other information.

Frequently asked questions

*Please avoid long-time exposure of the device to extreme temperatures that are too cold or too hot, which may cause permanent damage.

*Why can't I take a hot shower with my watch?

The relative change of the temperature of the bath water will produce a large amount of water vapor, and the water vapor is in the gas phase state, and its molecular radius is small, which is easy to penetrate into the gap of the watch case. If the internal circuit of the watch is short-circuited, the circuit board of the watch will be damaged.

*No power on, no charging?

If the watch can't turn on after you receive it, which may be caused by a collision during the transportation of the watch. The battery has been protected, please plug in the charging cable to activate it.

If the battery power is too low or it does not turn on for a long time, please plug in the charging cable and charge it for more than half an hour to activate it.

FCC Caution:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

Hereby, Shenzhen Xinkeying Technology Co., Ltd declare that the radio equipment type Product Name is compliance with Directive 2014/53/EU.

Bluetooth	
Modulation:	GFSK
Operation frequency:	2402MHz~2480MHz
Channel number:	40
Channel separation:	2MHz
Max Peak Output Power:	4.15 dBm
Antenna type:	Internal Antenna
Antenna gain:	-0.7dBi

Bluetooth	
Modulation:	GFSK, $\pi/4$ DQPSK, 8DPSK
Operation frequency:	2402MHz~2480MHz
Channel number:	79
Channel separation:	1MHz
Max Peak Output Power:	2.73dBm
Antenna type:	Internal Antenna
Antenna gain:	-0.7dBi

This device was tested for operations. To comply with RF exposure requirements, a minimum separation distance of 0mm must be maintained between the user's body and the handset, including the antenna. Third-party belt-clips, holsters, and similar accessories used by this device should not contain any metallic components. Body-worn accessories that do not meet these requirements may not comply with RF exposure requirements and should be avoided. Use only the supplied or an approved antenna. This device in compliance with the essential requirements and other relevant provisions of Directive 2014/53/EU. All essential radio test suites have been carried out.

1. Use careful with the earphone maybe possible excessive sound pressure from earphones and headphones can cause hearing loss.
2. CAUTION : RISK OF EXPLOSION IF BATTERY IS REPLACED BY AN INCORRECT TYPE. DISPOSE OF USED BATTERIES ACCORDING TO THE INSTRUCTIONS
3. The product shall only be connected to a USB interface of version USB 2.0
4. Adapter shall be installed near the equipment and shall be easily accessible.
5. The plug considered as disconnect device of adapter
6. The device complies with RF specifications when the device used at 0mm form your body
7. There are no restrictions on the use of the product in all EU countries.

Shenzhen Xinkeying Technology Co., Ltd

I hereby declare that the product

Product name: Smart watch

Model:DTX Max,DTX Max+,DTX Max Pro+,DTX Max mini,DTX Max Pro

Trademark: DTNO.1

HW: V1.0

SW: V1.0.0

(Name of product, type or model, batch or serial number)

satisfies all the technical regulations applicable to the product within the scope of Council Directives 2014/53/EU, 2014/35/EU and 2014/30/EU: and declare that the same application has not been lodged with any other notified body.
