FCC WARNING

This device complies with part 15 of the FCC Rules. Operation is subject to the follow ing two conditions : (1) this device may not cause harmful interference, and (2) this device must accept any interference received,inc luding interference that may cause undesired operation.
Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
NOTE:This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part l5 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a l?esidential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interferenceto radio comunications.
However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or televis ion reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
-- Reorient or relocate the receiving antenna.
-- Increase the separation between the equipment and receiver.
-- Connect the equipment into an outlet on a circuit different
    from that to which the receiver is connected.
-- Consult the dealer or an experienced radio/TV technic ian for help.
To maintain compliance with FCC's RF Exposure guidelines, This equipment should be installed and operated with minimum distance between 20cm the radiator your body: Use only the supplied antenna.

Instructions

01 | Installation
◎ Remove the feeder from the box.
◎ Place the feeder in the suitable location.
◎ Combine the food tray with the base of the feeder.

02 | Connect the power supply
◎ Plug the 5V/1A power adapter into the wall socket and connect the device.
◎ Open the battery compartment at the bottom of the feeder and install 3 pcs Size D Battery (not necessary) to prevent power failure
◎ The LED light is on to indicate that the feeder is powered on.
Note:
Does not including battery.
Before turning on the power, make sure that all parts are clean and completely dry.

03 | Put pet food in food tank
◎ Fill the food tank with dry pet food. Close the lid and it will snap into place due to gravity.
Note:
Do not place canned, wet or wet pet food.
The recommended pet food size range is 2~12 mm.

04 | Recording
◎ Press and hold for 7 seconds to make a "ding dong" sound, and the device will automatically restart after restoring the factory settings

Smart Life APP specific operations

1. Scan the QR code to download the exclusive APP, register an account and log in

2. Enter the main interface of the APP and add a device

3. Manually Add-Small Appliances-IPC Pet Feeder

4.Confirm the device indicator is flashing,then next step

5. Enter the WiFi password. Note that the name and password do not contain Chinese characters and special symbols, and 5GWiFi is not supported.

6. Keep the QR code facing the feeder camera at a distance of 10~15cm

7. Wait for the device to connect to the network

8. The addition is successful, you can give a name to the feeder

9. Choose to feed regularly and set up a feeding plan

10. Add timing, set feeding time and number of meals

11. Select the time, repeat the selection to every day, and select the number of servings per meal

12. Click the mark in the upper right corner of step 9 to enter the device settings

Simple Troubleshooting

Q: Cannot be configured
A: 1) WiFi name and password do not use Chinese, no more than 12 digits, please use a combination of numbers and letters, do not support 5G WiFi signal, please use 2.4G WiFi signal.
2)Some software conflicts in the mobile phone will also cause the network connection to fail. Please restart the mobile phone, close the non-system software that starts automatically when you turn it on, turn on the mobile phone's Bluetooth and positioning, and then try to reconnect.

Q: The feeder is inaccurate or unable to feed
A : Please check whether there is too much food on the food tray and whether the food outlet is blocked; usually clean the food outlet and food channel in time; when using battery power, please check whether the battery is dead and whether the battery is leaking.

Q: The feeder displays offline
A :Please check whether the distance between the feeder and the router at home is more than 10 meters (effective distance is 10 meters); try not to partition the wall in the middle. According to the WiFi characteristics, the WiFi signal of the partition wall will drop sharply, and the connection will become unstable, which will cause the product to be offline.

Q: No response when turn on the feed
A : First check that the movie is plugged in and the switch is on. If they are all plugged in, please check whether the power adapter and power cord are damaged, and contact customer service for handling.

Hotspot distribution network (optional)
The specific steps are as follows:
1. Open the Smart Life APP, select Add Device – Manually Add – Small Appliances - Pet Feeder (Wi-Fi) – Enter the WiFi Password Next – Click "Next", select Slow Flash – Click "Connect" – then go to connect SmartLife -XXXX WiFi signal.
2. After connecting, return to the previous interface, and then enter the network configuration interface to wait for the connection.
