

Transparent Magnetic Wireless Car Charger

User Manual

Descriptions

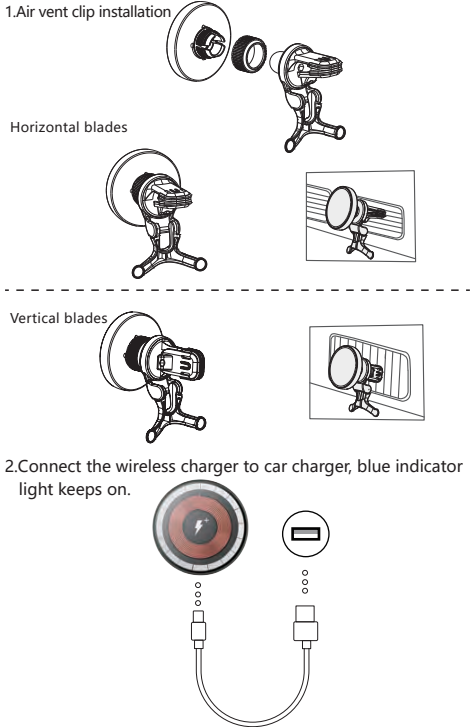

Product Features

- 1.Multistage magnetic combination, strong magnetic power to keep phone steady.
- 2.Newly upgraded tempered glass materials, reveal the beauty of science and technology.
- 3.Up to support 15W wireless fast charging.
- 4.Indicator: Stand-by mode-Blue light, Charging mode-Red light, FOD mode-Green light.
- 5.Compatible for Iphone 12/13 Series.

Parameters

Materials: tempered glass+aluminium alloy
Input: 5V=2.0A or 9V=2.0A
Output: 5W/7.5W/10W/15W
Input Port: type-c
Product Size: Φ61.5*9.75mm

Operation Steps

- 3.Put the phone on the wireless charger, magnetic attractive force aligns the right charging position, red indicator light keeps on when charging.

Cautions

- Recommended for using product at environment temperature(-10°C to 40°C).
- Do not disassemble charger without authorization.
- Please do not put the metal or magnetic goods (such as coin, bank card, key etc) on the charging area while charging.

- QC3.0 or PD 18W adapter or above is recommended for fast charging function.

FCC Caution

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

IMPORTANT NOTE

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.

- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement:
This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment .This equipment should be installed and operated with minimum distance 20cm between the radiator& your body.
