This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:</p> <ul style="list-style-type: none"> -- Reorient or relocate the receiving antenna -- Increase the separation between the equipment and receiver -- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. -- Consult the dealer or an experienced radio/TV technician for help <p>This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:</p> <ol style="list-style-type: none"> (1) This device must not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation. <p>The device has been evaluated to meet general RF exposure requirement.</p>
LED color	Blue&red																																											
Power on	Blue light for 1s																																											
Turn off	Red light for 1s																																											
Connected	No light																																											
Music playing	No light																																											
Calling/on call	No light																																											
No connection when power on	Red light on for 1s and then shut down																																											
Restore factory settings	Red & blue light flash for 1s simultaneously then turn off																																											
Low power	Red light flashes every 5s																																											
Charging	Red light keeps on																																											
Full power	Red light goes off																																											
Power on	Power on																																											
Power off	Power off																																											
Phone call	Ringtone																																											
Disconnected	Disconnected																																											
Pairing to cellphone	Pairing																																											
Connected	Connect																																											
Low battery	Please Charging																																											
Maximum volume	"MAX VOL"																																											
Minimum volume	"DONG"
