Trouble Shooting

Problem: Earbuds fail to pair

*Please ensure the headset and the device are kept within 10 meters.
*Ensure the Bluetooth device is turned on. If you have connected to another mobile device before, you can turn off the Bluetooth function of the mobile phone, or delete the pairing name "T72", and then search again.
*Perform Factory Reset.

Problem: Earbuds can't power on

*The battery is too low, please charge them.

Problem: Earbuds can't charge

*Please make sure the charging case is enough to charge.
*Please make sure the earbud is properly placed back into the charging case and in contact with the charging pins.

Problem: Charging case can't charge

*Please make sure the charging cable is not faulty.
*Please make sure the charging case is not defective.

Problem: Earbuds volume is low

*Apple System: Adjust the sound of the mobile phone system simultaneously with the earbud and mobile phone.
*Android System: The earbuds adjust the sound output by the earbuds, and the mobile phone adjusts the sound output by the mobile phone. If the sound is not very loud when the earbud is turned to the loudest, you can increase the volume by adjusting the sound of the mobile phone.

Problem: Bluetooth interference

* Different brands of mobile phone models have different effects on Bluetooth signals, please try to use other brands of mobile phones.
* Stay away from interference sources, such as obstacles, WIFI, electromagnetic waves, etc.

Factory Reset:

1) Delete the "T72" in the Bluetooth list and turn off the phone Bluetooth.
2) Make sure the earbuds are power off status, long press the two MFB for 10 seconds until red light flash, remove your hands, the red light will flash 3 times. it indicates the paring record removed successfully.(Pls ignore the red light appears in 3s)
3) Earbuds will flash red and blue, and then right earbud light off, the left earbud will flash the red and blue light. At this time, pls turn on your phone Bluetooth, and search "T72".

Safety criterion:

1.Please follow the instruction of user manual and do not take any reason to disassemble or modify the device, otherwise it may cause earbuds failure or burnout.
2.Do not drop the product to any liquid or wash in water.
3.Do not charge the earphone with adapter which is over rated current/voltage. Ensure your charger is limited within 5V/1A. otherwise the battery of earbuds will be damaged.
4.Please use or store product in room- tempera ture environment. Do not put the product in an environment where the temperature is too high or too low (Below 0 degrees or above 45 degrees)
5.Do not block any mouth of earphone, such as charging interface, LED indicator, microphone.
6.Do not use the earphone overtime and over-volume, or it will make you feel dizzy or damage your hearing.
7.Do not use the devices under thunderstorm environment. Thunderstorm may cause abnormal operation of the devices, signal interruption, etc.

THANK YOU!
