## FCC Compliance Statement

- This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

  (1) This device may not cause harmful interference.

  (2) This device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation

f this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or nhore of the following measures:

• Reorient or relocate the receiving antenna.

- Increase the separation between the equipment and receiver.

  Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

  Consult the dealer or an experienced radio/ TV technician for help.

To maintain compliance with FCC's RF Exposure guidelines, This equipment should be installed and operated with minimum distance between 20cm the radiator your body. Use only the supplied antenna.

## User Manual

2-in-1 Magnetic Wireless Charging Stand

Model: T575-F

① Connect to power adapter

## Attention

\* Do not disassemble the device.

- \* Please make sure your device is Oi-enabled or equipped with a Oi receiver kit (not included).
- \* To achieve phone magnetic charging, please ensure that the phone has a magnetic charging function or with a magnetic accessory (such as a magnetic protective case).
- \* A Quick Charge adapter and cable are required for the fast wireless charging features. (Power adapter is sold separately)

  \* Do not use or store the magnetic wireless charger in a hot or humid
- environment as it may damage the circuit.
- \* A magnet may interfere with the magnetic charging of the product or cause malfunctions; To avoid indirect interference with the product, please keep magnetic chip cards (e.g. ID cards, credit cards) or medical devices (e.g. pulse measuring device, hearing aid) at least 20cm away

White lights breath simultaneously -- Charging 1 device. White lights breath alternately -- Charging 2 devices
One light breaths, the other light flashes -- One device charging, the other paused due to a foreign object detected. (Please remove the

object to continue charging.)
