

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

EUT Housing and Board View 1	 A photograph showing the internal components of a mobile device. On the left is a black plastic housing with a rectangular cutout for the camera. To its right is the internal assembly, featuring a white display panel, a yellow battery, and various electronic components. A black ruler with white markings is positioned vertically on the left and horizontally at the bottom for scale. The background is a blue textured surface.
Solder Board-Component View 1	 A photograph of a blue printed circuit board (PCB) component. It features a large silver metal shield, a yellow component with a label, and various electronic components and connectors. A black ruler with white markings is positioned vertically on the left and horizontally at the bottom for scale. The background is a blue textured surface.

Solder Board-Component View 2	 A photograph of a blue printed circuit board (PCB) component, labeled '2', resting on a blue textured surface. The component is rectangular with various electronic components and gold-plated connectors. A black ruler with white markings is placed vertically to the left of the component, showing measurements from 0 to 80 mm. A horizontal ruler at the bottom shows measurements from 0 to 100 mm.
Solder Board-Component View 3	 A photograph of a blue printed circuit board (PCB) component, labeled '3', resting on a blue textured surface. The component is rectangular and features a large central chip, several smaller components, and a gold-plated connector. A black ruler with white markings is placed vertically to the left of the component, showing measurements from 0 to 80 mm. A horizontal ruler at the bottom shows measurements from 0 to 100 mm.

Solder Board-Component View 4	 A photograph showing the battery component on a blue textured surface. A black ruler is placed vertically to the left of the battery, with markings from 0 to 100 mm. The battery is a rectangular silver-colored cell with a yellow adhesive strip on the left side. Two thin wires (red and black) are soldered to the top of the battery. The battery has the following text printed on it: - 6V 403750 3.7V and + 900mAh 3.33Wh 2201.
Antenna View	 A photograph showing the internal components of a device, including the battery and two antennas. The battery is a rectangular silver-colored cell with a yellow adhesive strip on the left side. Two thin wires (red and black) are soldered to the top of the battery. The battery has the following text printed on it: - 6V 403750 3.7V and + 900mAh 3.33Wh 2201. Two antennas are visible: a small orange antenna labeled "WIFI/BT Ant" and a larger silver antenna labeled "GSM/WCDMA Ant.".
