

EXHIBIT 4 - TEST SETUP PHOTOGRAPHS

Conducted Emission Test Setup*	 A photograph showing a conducted emission test setup. On the left, a spectrum analyzer is placed on a wooden bench. A red cable connects it to a power supply unit on the floor. To the right is a large, light-colored wooden table. The background is a plain wall with a power outlet.
Radiation Emission Test Setup (Below 30MHz)	 A photograph of a radiation emission test chamber. The interior walls are lined with white, square-shaped electromagnetic absorbers. In the center, a black metal frame stands on a white base. The floor is dark and reflective, with yellow and black safety tape markings.

Radiation Emission Test Setup (30MHz to 1GHz)	 A photograph of a radiation emission test chamber. The interior walls are covered with white, square-shaped anechoic absorbers. In the center, a white, rectangular test fixture sits on a circular turntable. To the right, a metal frame with several vertical rods is visible. The floor is a light-colored, reflective surface with yellow and black safety markings.
Radiation Emission Test Setup (1GHz to 18GHz)	 A photograph of a radiation emission test chamber, similar to the one above but for a higher frequency range. The walls are covered with white, square-shaped anechoic absorbers. In the center, a white, rectangular test fixture sits on a circular turntable. A red, curved object, possibly a probe or a part of a measurement system, is visible on the right side. The floor is a light-colored, reflective surface with yellow and black safety markings.

Radiation Emission Test Setup (Above 18GHz)	 A photograph of a radiation emission test setup. A white, rectangular test object is placed on a white, stepped platform inside an anechoic chamber. The walls, floor, and ceiling are covered with white, square-shaped absorbers. A blue cable is visible on the right side of the chamber. The floor has a black, serrated edge.
	 A close-up photograph of the test setup. It shows a black, rectangular object on a white, stepped platform. The background is a white, square-shaped absorber. The floor has a black, serrated edge.

* Means' only test and setup for PART 15C .
