Product features/产品特点

- It is easy to use among multiple devices, it can be freely switched among computer, mobile phone and tablet personal computer.
多设备轻松使用,可以在电脑、手机、平板电脑之间自由切换。

- Put the tablet computer and the smartphone into the fixed support for input and reading.

Basic Parameters/基礎參數/基本パラメータ/기초파라미터/基礎參數

键盘基础参数:

- 键盘规格: BT3.0
距离: 10cm
工作电压: 3V
工作电流: 3mA
键盘使用寿命: 300万
键盘尺寸: 285.7x141.5
- 键盘阶梯工作**
- 工作电压: 3mA
工作电流: 30mA

The underlying parameter of the keyboard.

- The footprint: edition: 8710
distance: 10m
The working voltage: 2V
The working current: 10mA
The lifetime of the keys of the keyboard over 3 million times

键盘触键工作电流:

- 工作电压: 3.3V
漏电流: 12 μ A

The working current for the keyboard ladder:

- The working current : 3mA

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

RF Exposure Information

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
