产品介绍及配件 Product Introduction and Accessories

产品简介 Product Introduction

本产品为车载蓝牙接收器，本产品适用于车载、音响、耳机等带有 3.5mm 音频接入口的没有蓝牙功能的设备。

This product is a vehicle Bluetooth receiver. This product is suitable for vehicle, audio, headset and other devices without Bluetooth function with 3.5mm audio access port.

产品配件清单

- 1.蓝牙接收器 1 台
- 2.Type-C 充电线 1 条
- 3.说明书保修卡 1 份

List of product accessories

1. Bluetooth receiver \*1
2. Type-C charging cable \* 1
3. manual with warranty card \* 1

#### 产品规格

产品名称:AUX 车载蓝牙接收器

产品型号: B23

蓝牙版本:5.0

输出接口: 3.5mm 音频接口

电池容量: 145mAh

蓝牙距离: 5-8 米

充电口: Type-C DC 5V/100mA

产品尺寸: 51mm\*12.5mm\*24.5mm

产品净重: 14.7g

USB 线长度: 80CM

#### Product Specification

Product Name: AUX Vehicle Bluetooth Receiver

Product Model: B23

Bluetooth Version: 5.0

Output Interface: 3.5mm Audio Interface

Battery Capacity: 145mAh

Bluetooth Distance: 5-8m

Charging Port: Type-C, DC 5V / 100mA

Product Size: 51mm \* 12.5mm \* 24.5mm

Product Net Weight: 14.7g

USB Cable Length: 80cm

Examination Clerk:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction
