

# Car Wireless Charger S21

## Instruction Manual

### 1 Car Wireless Charger Manual

Product Name: Car stand wireless charger  
(Intelligent sensing)

Power: 5W, 7.5W, 10W, 15W (Optional)

Size: Middle disk diameter:  
12.4cm x 7.9cm x 2.2cm

Charging interface: Type-C

Packing list:

Car bracket x 1, Manual x 1,

Data ling x 1, Car outlet base (clip) x 1

### 2 功能组件

### 3 Specifications

1. Model: S21
2. Color: Silver Tarnish
3. Weight: product net weight about 112g
4. Material: PC+ABS Vacuum Plating
5. Input voltage/current: 5V/2A, 9V/1.67A
6. Output power: 15W, 10W, 7.5W, 5W automatic identification
7. Transmission efficiency: 72%
8. Charging distance: 3-8mm
9. Support Specifications: Qualified with Qi Wireless Protocol Charging
10. Devices that support QC wireless fast charging, such as iPhone XS, iPhone XR, iPhone XS Max, iPhone X, iPhone 8, iPhone 8 Plus, Samsung S6, S6 Edge, S7, S7 Edge, S8, S8+, S9+, S10, Huawei P30 Pro, Huawei Mate 20 Pro, Xiaomi 9
11. Devices that do not support wireless charging need to purchase Qi-compliant wireless receivers before they can be used.

### 4 Instructions For Use

### 5 Precautions

1. Do not over-squeeze or bump the device.
2. Do not use under severe high temperature, humidity or corrosive environment. Wireless charger to avoid damaging the circuit of the device.
3. This equipment foreign body detection, over-current protection, short-circuit protection, intelligent Recognition.
4. The current of this equipment must reach 2A.
5. Please use the matching power adapter, otherwise it will affect the wireless charging efficiency may be off.
6. Support mobile phone size: 4.7-6.5 inches (4.7-inch mobile phones must have phone case)

Thank You For Using This Product!

### FCC Warning Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
