

XYX-0401-433 使用说明书

技术参数:

工作电源电压: 纽扣电池 CR2032 , 3V
工作电流: 4.5~6.5mA
静态电流: $\leq 3\mu A$
RF 发射频率: 433.92MHz $\pm 30\text{KHz}$
RF 发射功率: 0dB
RF 调制方式: ASK
RF 无线速率: 2ksps
遥控距离: $\geq 6\text{m}$
使用环境温度: -5~45°C 湿度: $\leq 90\%$
存储环境温度: -25~55°C 湿度: 45%~75%

产品使用说明:

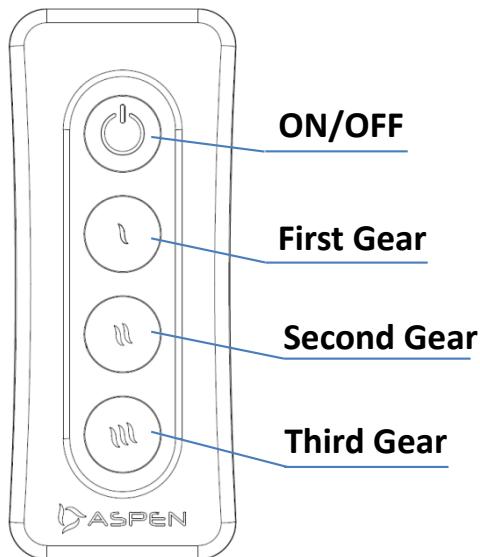

1. 取下电池绝缘片;
2. 按下遥控器对应按键, 设备端执行对应功能;

XYX-0401-433 User Guide

Technical parameters:

- Operating power supply voltage: button battery CR2032 , 3V
working current: 4.5~6.5mA
quiescent current: $\leq 3\mu A$
RF emissino frequency: $433.92\text{MHz} \pm 30\text{KHz}$
RF transmitting power: 0dB
RF Modulation Mode: ASK
- RF Rate of wireless: 2ksps
Control distance: $\geq 6\text{m}$
The use of ambient temperature: $-5\text{~}45^\circ\text{C}$ humidity: $\leq 90\%$
- Storage environment Temperature: $-25\text{~}55^\circ\text{C}$ humidity: 45%~ 75%

User Guide:

- 1.Remove the battery insulation sheet;
- 2.Press the corresponding button of the remote control,the device will perform the corresponding function;

FCC warning:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for

compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction
