(1)Create your own Playlists
When you connect mp3 player to PC, you can create folders in the mp3 player or SD Card. These folders can be used a Playlists. If you drop some musics in one folder, and then unplug and go to "Browser" icon on MP3, you can only play and shuffle these musics in the folder.

(2)Sorting as same as on PC
Audio Book lovers usually need to make sure all files in the order they want. Unfortunately MP3 or SD Card's memory designed different from PC's storage. Thus you need some trick to sort files as same as on PC.

Here's the steps:

(1), Prepare the audio files and sort them on PC.

(2), Select all files, but do not copy (Important).

(3), Move your mouse cursor to the first file, and copy.

(4), Paste files to mp3.

(5), Unplug mp3 and go to "Browser", all files will be sorted exactly as same as on PC.

MP3 and SD card's memory will sort file by edit time, the first file be dropped in will be list as first edited file. If you change the file name or do some other modification, it'll go the last of the list. This trick only works on "Browser" icon, not on "Music" icon.

Don't forget add a bookmark when you use audio book.

## 8.Voice Record

Touch the "Record"on the main interface to access to its function a related list will show as follows:

· Start voice recording: Click this option to start voice recording, during the voice recording you can "suspend/play"

· Recordings library

· Record from

· Record format

· Set rec bitrate

· Track AVR mode

## Support and Troubleshooting

Q: How to transfer music to the mp3 player?
A: Download music to your computer first, and then connect mp3 player with your computer thru charging cable. A new disk will pop on as flash driver, and drop all your musics to the disk. You can create folders in the disk to sort your music.

Q: Why my computer can't detect mp3 player?
A: QNGEE Mp3 player can be paired for all computer system with latest USB driver. Please update your USB driver before plug in Mp3 player or try another charging cable. It you still can't connect QNGEE Mp3 Player to you computer, please contact QNGEE customer service team for additional help(See Cover).

Q: How can I continue audio play after turn the player off?
A: You can not continue your play after turn off the player. However, if the player is in sleep mode, you can continue your play by wake it up. See "Basic Operations" about how to get into sleep mode.

Q: Why my mp3 player can not turn on ?
A: Firstly please connect the mp3 player with your computer  to charge for a while, if the battery of your mp3 player very low, you will not be able to turn it on.
Secondly, if after your charged for the mp3 player it still can not turn on, you could hold the power button for 15s to reset the mp3 player, or Poke the reset hole with a thin needle to restore the device
Thirdly if still not working, please contact our customers service

## FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

?Reorient or relocate the receiving antenna.

?Increase the separation between the equipment and receiver.

?Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

?Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

RF Exposure Information

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
