Portable Wireless BT Streaming Mini Speaker

Portable Wireless BT Streaming Mini Speaker
- IPX7 Waterproof Wireless Speaker for Outdoor Play,
Built-in Microphone

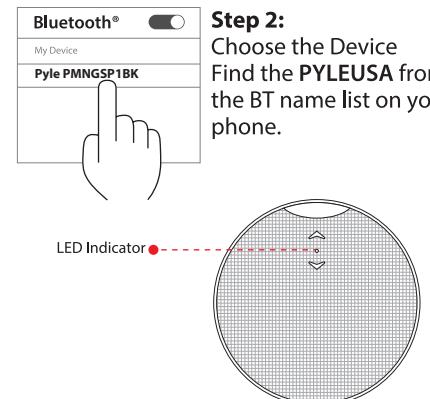

USER GUIDE

WIRELESS BT CONNECTION

Step 1:
Press and hold  3 seconds to power ON.
The speaker enters into BT searching status
and the blue indicator starts blinking.

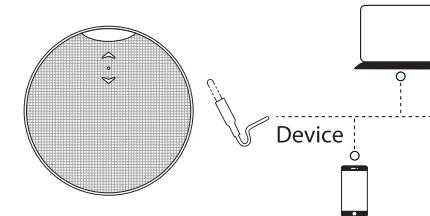

WIRELESS BT CONNECTION

Step 2:
Choose the Device
Find the PYLEUSA from
the BT name list on your
phone.

Step 3: Pairing Successful
The indicator light will stay blue once
pairing is done, then you can play music.

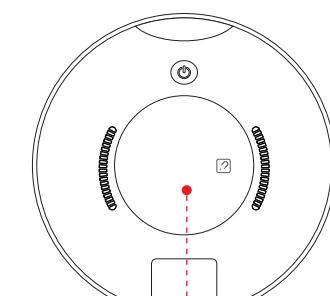

AUX-IN Connection

The speaker also features **1*AUX** audio in
port, simply connect the speaker with your
mobile phone/MP3 player/PC/Laptop
with the 3.5mm jack audio cable.

The green light will be ON and you can
play music via wired connection.

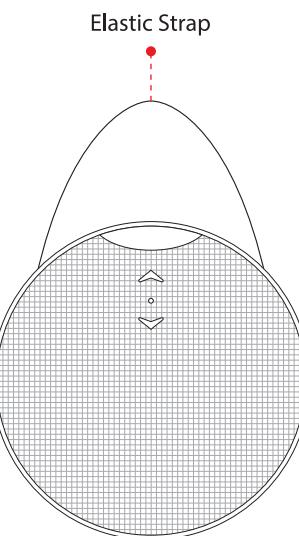

Magnetic Adsorption

The Built-in Magnet

Attention:
This product contains strong magnet.
Please keep a safe distance from products
which are sensitive to magnet.

Elastic Strap

FCC Statement

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
