View 1****Solder
Board-Component View
1**

Solder Board-Component View 2	 A photograph of a small green printed circuit board (PCB) component, labeled '2', mounted on a blue textured surface. The component is rectangular with a central circular hole and several soldered connections. A red push-button is attached to the right side. A metal ruler is placed vertically to the left of the component, showing a scale from 1 to 8 cm. A smaller ruler is placed horizontally below the component, showing a scale from 1 to 7 mm. The component's length is approximately 4.5 cm and its width is approximately 1.5 cm.
Solder Board-Component View 3	 A photograph of a larger green printed circuit board (PCB) component, labeled '3', mounted on a blue textured surface. The component is rectangular with various electronic components, including resistors, capacitors, and a small black integrated circuit. A metal ruler is placed vertically to the left of the component, showing a scale from 1 to 8 cm. A smaller ruler is placed horizontally below the component, showing a scale from 1 to 8 mm. The component's length is approximately 6.5 cm and its width is approximately 2.5 cm.

Solder Board-Component View 4	 A photograph of a green printed circuit board (PCB) with various electronic components. The board is placed on a blue textured surface. A vertical ruler on the left shows centimeters (1-8) and millimeters (0.5 mm). A horizontal ruler at the bottom shows millimeters (1-8). The PCB has labels: 'Glocusent_V1.2' and '2022-12-04'. It features a central black chip, several smaller components, and a series of pins along the bottom edge.
Antenna View	BT Antenna  A photograph of the same green PCB, similar to the one above. A red box labeled 'BT Antenna' points to a specific area on the board. The board is placed on a blue textured surface. A vertical ruler on the left shows centimeters (1-8) and millimeters (0.5 mm). A horizontal ruler at the bottom shows millimeters (1-8). The PCB has labels: 'Glocusent_V1.2' and '2022-12-04'. It features a central black chip, several smaller components, and a series of pins along the bottom edge.
