

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

EUT Housing and Board View 1	 A photograph showing the internal components of a device. A green printed circuit board (PCB) is visible, populated with various electronic components including a large silver heat sink, a USB port, and several integrated circuits. The PCB is connected to a black plastic housing. A white ribbon cable is visible, connecting the PCB to a smaller green board inside the housing. A black ruler with white markings is placed horizontally below the assembly for scale.
Solder Board-Component View 1	 A close-up photograph of the green PCB component. The board is populated with various electronic components, including a large silver heat sink, a USB port, and several integrated circuits. A black ruler with white markings is placed horizontally below the component for scale.

Solder Board-Component View 2	 A photograph of a green printed circuit board (PCB) component, labeled '2', positioned on a blue textured surface. The component is rectangular with various solder points and components. It is placed next to a black ruler with white markings for scale. The ruler shows measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm).
Solder Board-Component View 3	 A photograph of a green printed circuit board (PCB) component, labeled '3', positioned on a blue textured surface. The component is rectangular with various solder points and components. It is placed next to a black ruler with white markings for scale. The ruler shows measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm).

Solder Board-Component View 4	 A photograph of a green printed circuit board (PCB) component, labeled '4', positioned on a black surface with a white ruler. The ruler has markings in millimeters (0 to 100) and centimeters (0 to 10). The PCB is rectangular and features various electronic components, including a large integrated circuit (IC) in the center, several smaller ICs, and numerous surface-mount components. The board is oriented vertically, with the ruler placed horizontally to its left.
Solder Board-Component View 5	 A photograph of a green printed circuit board (PCB) component, labeled '5', positioned on a black surface with a white ruler. The ruler has markings in millimeters (0 to 100) and centimeters (0 to 10). The PCB is rectangular and features three surface-mount LEDs labeled 'LED1', 'LED2', and 'LED3'. The board is oriented vertically, with the ruler placed horizontally to its left.
