SCALABLE CABLE  
MAGNETIC CHARGING

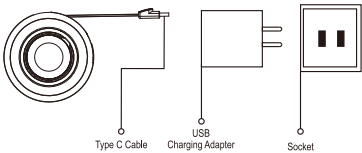

Product Specification

Product Description	SCALABLE CABLE MAGNETIC CHARGING
Model	Y6
Product Size	66.8*66.8*26mm
Product Weight	75g
Coil Inductance	7.4-8.0uH
Magnet Requirements	5000Gauss
Capacitance Requirements	NPO Capacitor
Power Supply Interface	TYPE-C Interface
TYPE-C Cable	0.8m
Adapter Requirements	≥5V=1A Adapter
Input Voltage Range	4.9V-5.5V
Maximum Output Power	2.5W (MAX)
Standby Power Consumption	5mA~20mA
Wireless charging Distance	0.6-1mm
Working Environment	10~30℃
Charging Protocol	PD/QC

Note:  
1. The wireless charger needs an external power supply, and does not provide power energy by itself.  
2. You need to connect the product to an adapter of 5V=1A or above to work properly.

1

Charging Operation Method

1. Pull out the retractable charging cable that comes with the wireless charger and connect it to the power adapter.
2. Put the Apple Watch on the wireless charger and pay attention to whether the charging icon appears on the Apple Watch. If the charging icon dose not appear, please adjust the position to ensure that the Apple Watch fits well with the

2

wireless charger until the charging icon appears. In addition, the wireless charger can adjust the middle charging module to erect and form a charging seat, which can be more convenient for the watch to be placed.

3. Charging is completed, unplug the retractable charging cable from the adapter, gently pull the charging cable, it can be automatically put away, and finally buckle the cable into the corresponding card slot position.

Note:

If the Apple Watch is not charged, check that the charging cable is plugged in, or that the Apple Watch is fully fitted to the wireless charge.

3

Charging Response/Compatibility

Compatible Models	Size	Ambient Temperature	Full Charging Time
iWatch2	38mm/42mm	28℃	2h30min
iWatch3	38mm/42mm	28℃	2h30min
iWatch4	40mm/44mm	28℃	2h20min
iWatch5	40mm/44mm	28℃	2h20min
iWatch6	40mm/44mm	28℃	2h10min
iWatch7	41mm/45mm	28℃	1h50min
iWatch8	41mm/45mm	28℃	1h50min
iWatch9	41mm/45mm	28℃	1h50min
iWatch SE	40mm/44mm	28℃	1h50min
Ultra	49mm	28℃	3h30min
Ultra2	49mm	28℃	3h30min

User Maunal

Note:

1. Please read the instruction manual carefully before using this product and keep it properly;
2. This product comes with a retractable charging cable, ut no built-in battery, you need to use an adapter or other power to charge the watch;
3. Please connect the wireless charger to the original power adapter with an output of 5V = 1A or above, and the charging effect will be faster;
4. Please do not disassemble or modify this product without permission;
5. Do not place this product near fire sources;
6. Do not place this product in a humid environment;

6

7. Please do not let water or other liquids flow into the product and cause damage to the product;
8. Please do not place metal or other objects around the wireless charging area;
9. Improper use of this product may result in shortened product life or damage;
10. Do not use the charger with electronic products that do not meet the specifications to avoid any problems caused by non-compliance with the specifications.

WARNING

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:  
(1) This device may not cause harmful interference, and

7

(2) this device must accept any interference received, including interference that may cause undesired operation. Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.  
NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

8

-- Reorient or relocate the receiving antenna.  
-- Increase the separation between the equipment and receiver.  
-- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.  
-- Consult the dealer or an experienced radio/TV technician for help.  
FCC Radiation Exposure Statement This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance of 20 cm between the radiator and your body.
